PENNSYLVANIA LEGISLATURE.

Appropriation Bill in the Senate—Bills Passed Finally in the House—Resolutions Rescinded.

[Special Dispatch to the Pittsburgh Gazette.]

HARRISBURG, March 26, 1868.

SENATE.

The Senate occupied all morning with the appropriation bill, which is passing as it came from Committee of the Whole.

At the afternoon session the Appropriation bill passed two readings prettty nearly as it came from the Committee of the Whole. John Burns, of Gettysburg, gets two hundred dollars.

RESOLUTION RESCINDED.

The Senate rescinded Mr. Lowry's resolution of Friday relative to the Philadelphia judges and pardoning power.

HOUSE OF REPRESENTATIVES.

Mr. LINTON, of Cambria, introduced a bill incorporating the Johnstown Farmers, Mechanics and Laborers Co-operative Association.

BILLS PASSED FINALLY.

Senate supplement relating to insurance companies, which applies to the supplement of April 27th, 1867, to life and accident insurance.

House bill requiring the State Treasurer to refund one per cent. tax paid by banks under the act of February 23d, 1866, declared unconstitutional by the Supreme Court.

House supplement to the Militia law of 1864, revising the system, passed on second reading. It provides, among other things, that persons may purchase exemption, except in case of invasion or insurrection, by the payment of an annual tax of one dollar, to form county brigade funds, and members of military organizations to be paid twelve dollars per year.

The bill fixing the number and pay of Legislative officers passed second reading. The Chief Clerks are to receive $1,500, Assistant Clerks $1,200, Transcribing Clerks $900, and all other officers, except pages, $600. The pasting and folding to be contracted for.

Senate bill extending mechanics lien law to improvements of machinery, tanks and fixtures of oil refineries, amended by leaving it optional with stockholders of companies to adopt the law.

House joint resolution appropriating $2,500 to repairs of the Penn treaty monument, Philadelphia.

Repealing that provision in the act of March 27th, 1865, relating to proceedings in partition, which requires monies arising from sales to be paid into Court.

Enabling insurance companies to transact business in other States.

Supplement to nineteenth section of act of April 16th, 1838, relating to opening of private underground roads to mines and other places, extending the same to opening of air courses to coal mines.

Bill requiring Courts to forfeit licenses of persons convicted of wilfully selling liquor to minors, to known intemperate persons, and on Sunday. Discussed for two hours and passed the first reading.

LIABILITIES OF RAILROAD COMPANIES.

The special order for the evening session was the Senate bill defining the liabilities of Railroad companies. It passed to a second reading, and was amended by increasing the liability for personal injury to three thousand dollars and allowing parties insured by Railroad Companies to apply for damages under the second section.

MEXICO.

Civil War Progressing—Forced Loan from Merchants.

[By Telegraph to Pittsburgh Gazette.]

MAZATLAN, March 15th, *via* SAN FRANCISCO, March 25.—The civil war continues and grows more and more complicated. The revolutionists are gaining ground and Martinez is complete master of the situation.

A forced loan of $40,000 was made on merchants last week. Spaniards, Germans and Mexicans refused to pay and were imprisoned. After three days in jail they applied to the American Consul for relief, but Martinez informed them they would have either to pay or undergo imprisonment. The parties paid in the presence of the Consul and under protest. Martinez received official instructions from President Juarez to give up his command, and no longer exercise his usurped authority; also to present himself and his chiefs, in person, at the seat of Government. This Martinez refuses to do.

The Government has determined to sustain Governor Rubi, and has ordered reinforcements to be sent to him. Meantime Martinez is said to be making a treaty offensive and defensive with Generals Lesea, of Jalisco, and Borego, of Durango, two of the most famous revolutionists in Mexico.

United States Consul Elmer, at Elpaz has received an official communication from President Juarez granting the United States a coal depot at Pichelenge, a splendid harbor adjoining that place, free of all imports and duty whatever. The new Executive of Lower California, Governor Gallan, proves himself a strong advocate of American interest.

CINCINNATI.

Heavy Rains—Flood in the Ohio—Suicide.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, March 26.—The heavy rain of yesterday and to-day is general and unabated at midnight. Reports received here state that the Miami and other streams emptying into the Ohio have overflowed their banks, and great destruction to property is anticipated. The Ohio is rising rapidly.

Samuel Shotwell, recently from Memphis, attempted suicide yesterday evening by shooting himself, the ball entering his left breast. The wound will probably prove fatal.

THE CAPITAL.

Naturalization Treaty Ratified—The Russian Treaty—Nominations—Contested Seat from Utah.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, March 26, 1868.

NATURALIZATION TREATY RATIFIED.

The Senate to-day ratified the treaty between the United States and the North German Confederation, providing for free emigration, and that naturalization changes nationality. The vote was twenty-nine against eight. The treaty was slightly amended, but not in any important particular. The ground of opposition was that the North German Confederation might, according to the provisions, interfere with emigrants before the full time of naturalization expired, as Austria did in the Koszta case.

RUSSIAN TREATY.

The House Committee on Foreign Affairs will, it is said, when the impeachment trial is over, report in favor of an appropriation for the purchase of the Russian territory in accordance with the terms of the treaty.

NOMINATIONS.

The President has sent to the Senate the following nominations: Alfred Allen, Consul at Foo Chow; E S. Dundy, Judge of District Court, Nebraska; Richard F. Miller, Associate Justice of the Supreme Court, Idaho.

CONTESTED SEAT CASE.

The Committee on Elections yesterday heard the argument of McGroty, Gentile, who contests the seat of Hooper, Mormon, and to-day the Committee heard the reply of Hooper. The Committee it is supposed will take a definite action to-morrow.

BRIEF TELEGRAMS.

—In the case of Gov. Baker, at New Orleans, charged with perjury, the defense closed their evidence yesterday, and asked his discharge. Commissioner Shannon stated he should adjourn the Court until Wednesday next, when it would be opened for rebutting testimony on the part of the United States. Counsel for defense demurred, on the ground that further delay would result in prejudice to the State, and preferred at once that the case be sent before the District Court, which reference was given to the case, and the investigation ended.

—The Union Pacific Railroad Board of Directors made the location of the Council Bluffs Union Pacific Railroad bridge across the Missouri River yesterday. The action is final. Council Bluffs secures the passenger and freight transfers and depot buildings within her corporate limits. The citizens are jubilant over the event.

—At a meeting of the New York Chamber of Commerce yesterday, a memorial to the Legislature was unanimously adopted, urging the adoption of measures to prevent the consolidation of the management of railroads leading to that city from the West in the hands of a restrictive monopoly.

—The District Court at New Orleans has decided that the signature of Gov. Flanders to an act passed by the Legislature while Wells was Governor, and not signed by Wells, is a constitutional approval by the executive, and the act is a law.

—The Hope Insurance Company embezzling controversy at Louisville was concluded yesterday by the discharge of D. G. Bly, the Secretary, and John W. Arnold, who charged each other with unlawfully appropriating moneys of the Company.

—Judge McCunn of the Superior Court of New York has enjoined the Union Paper Collar Company against bringing suits to recover royalty on the manufacture and sale of paper collars, or interfering in any way with that trade.

—A new Fenian movement has been inaugurated by the Circle at Nashville, Tenn. It is proposed to hold a Convention in May and to secure pledges of five hundred thousand before another movement is made on the enemy.

—It is again said that Captain Deasy, announced rearrested in England, is in the United States, and has just completed a tour of the country on behalf of the Savage wing of the Fenian Brotherhood.

—The Internal Revenue officers of New York have seized four hundred and eighty-one bales Alabama cotton here on suspicion that it was removed from that State on fraudulent permits.

—Henry Lewis, W. J. Howard and a woman were arrested at Portland, Me., on Thurday, charged with robbing Adams Express company in Pennsylvania.

—Judge Harrison, of the Superior Court, at Nashville, Tenn., was thrown from a buggy on Thursday evening, and his right ankle fractured.

—The Presbyterian Synod of Kentucky has been in session for two days at Louisville, but has transacted no business of importance.

—H. E. Rodgers's paper mill in Cheneville, Conn., was destroyed by fire on Wednesday night. Loss, $50,000; insurance, $27,000.

—The receipts of Customs at New York on Monday, were seven hundred thousand dollars in gold.

—It is thought the United States Supreme Court will restore Mr. Bradly to the Washington City bar.

—McLean & Monahan's liquor store at Memphis, Tenn., was burned on Thursday. Loss $20,000.

—The steamship Nova Scotia, from Liverpool on the 12th, arrived at Portland yesterday.

—Baltimoreans, on Thursday, celebrated the arrival at that port of the new Bremen steamer.

—Journeymen plasterers in Philadelphia have resolved to ask an advance in their wages.

—The Arkansas Constitution is reported defeated by about seven thousand votes.

—Fifty thousand dollars were stolen from the Canal Bank at New Orleans, yesterday.

—The clergy of Havana refuse to confess patients who inhabit confiscated convents.

—General Buchanan has assumed command of the Fifth Military District.

FORTIETH CONGRESS.

Protest from Kentucky Legislature—The President's Veto—Judiciary Bill Passed Over the Veto in the Senate—Conference on the Manufacturers' Tax Bill—Bill for the Admission of Alabama Discussed in the House—Pacific Railways.

By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, March 26, 1868.

SENATE.

The CHAIR submitted a protest from the Legislature of Kentucky against the wrong done to the State in excluding its Representatives from the House, denouncing it as unconstitutional, &c. Referred to the Judiciary Committee.

Also, a memorial from the Constitutional Convention of South Carolina, praying for the removal of political disabilities from several persons named. Referred.

Mr. CHANDLER reported favorably, from the Committee on Commerce, a bill to prevent and punish frauds on the revenue, and for other purposes. Referred to the Committee on Finance.

Mr. SHERMAN reported favorably, from the Committee on Finance, a bill to refund certain duties paid under protest.

Mr. TRUMBULL introduced a bill in relation to the qualification of jurors, which he asked to have placed of the calendar, as it had already been considered by the Judiciary Committee.

On motion of Mr. SUMNER, at 12.25 P. M., the Senate went into executive session.

THE LAST VETO MESSAGE.

At half-past one the Senate resumed legislative business and took up the President's veto.

Mr. HENDRICKS contended that the act of 1867 gave any citizen the right of *habeas corpus* when restrained of his liberty in violation of the Constitution or treaties of the United States. This vetoed bill repealed that provision. Could Senators reconcile the deprivation of the right of appeal with the principles of law and justice?

Here the internal tax bill came from the House, and, on motion of Mr. SHERMAN, the Senate nonconcurred in the House amendments and ordered a Committee of Conference.

Mr. HENDRICKS resumed, and reciting the McArdle case, which had been brought directly within the law of 1867, said if he (Mr. Hendricks) had occasion to go South, and expressed himself in hostility to the policy of Congress, would the Senators, if he were arrested by the military authorities and appealed to the Supreme Court, say he should be sent back to his dungeon? Why was it they were not willing that the Supreme Court should pass upon their legislation? More than half the people of the United States had expressed their opinion against the constitutionality of their legislation, yet they talked about "all the people of the United States." They had established a system of despotism in the South more odious than that of Hayman. When Senators denied the constitutional right of trial by jury, and made a law providing for trial by military tribunal, was it not of necessity a case for the Supreme Court to decide which was law? It was an effort to strike down the judiciary, as the Executive had been stricken down during the last year. Do that, and all the power of the country was in the hands of one department of the Government. One department should be a check upon another within the sphere of the Constitution.

Mr. STEWART said it appeared the rights of man were very much involved in this bill, though the appeal to the Supreme Court had been dispensed with for three quarters of a century, until last year. McArdle having committed an offence, taken cognizance of by the military authorities, was arrested, tried and allowed to go on bail, and he certainly was not, therefore, laboring under very great disabilities. He (Mr. Stewart) had in that view made reference to the Supreme Court being overburdened with business. It was as much beyond that Court to hinder Reconstruction as it was beyond the power of the humblest individual. Therefore, they were not afraid of the Supreme Court. The presumption was the Supreme Court will obey the law, which was clearly on the side of Congress.

Mr. HOWARD asked what the charge against McArdle had been.

Mr. JOHNSON said the proceeding was on four grounds, disturbing the public peace, inciting insurrection, libelling a General of the army, and obstructing the reconstruction acts.

Mr. STEWART asked why, if the Supreme Court had jurisdiction over reconstruction, and the power to declare war had ceased, it did not exercise it?

Mr. JOHNSON said the Constitution provided *habeas corpus* should not be suspended in time of peace. The Supreme Court had decided in the *Milligan case* that military courts could try no civilian when peace prevailed in the United States.

Mr. TRUMBULL believed the law of 1867 was passed chiefly for the protection of colored citizens in the South from oppression.

Mr. JOHNSON replied it was comprehensive in character and covered all such cases. He entertained no doubt that in the opinion of the Supreme Court the case was before them under the act of 1867. He had confidence in the ability of the Chief Justice who he thought had made that point clear. He regretted the passage of the bill without sufficient knowledge on the part of Senators, who, if they had understood it, would have opposed it. Eulogizing the Supreme Court, he said that tribunal must hold to its authority to decide upon the constitutionality of laws or prove recreant to their trust. If Congress were left totally unrestricted, despotism would certainly result.

Mr. SAULSBURY remarked that Congress, to reach one solitary case, were seeking to repeal the inestimable privilege of *habeas corpus*. If Congress insisted on keeping the leaden cloud of despotism over the South, the high court of the people would in November set aside its verdict.

Mr. BAYARD said the bill if passed would do nothing less than stamp out existing nights of American citizens. He, however, had no hope it would be considered without reference to party.

Mr. BUCKALEW spoke in opposition to the bill, and implored the party in power not to lay sacriligious hands on the temple of justice.

The bill passed over the veto by the following vote.

Yeas—Messrs. Cameron, Cattell, Chandler, Cole, Conkling, Cragin, Edwards, Ferry, Frelinghuysen, Harlan, Henderson, Howard, Howe, Morgan, Morrill (Me.), Morrill, (Vt.), Morton, Nye, Patterson, (N. H.), Pomeroy, Ramsey, Ross, Stewart, Sumner, Thayer, Tipton, Trumbull, Van Winkle, Wade, Williams, Wilson, Willey—32.

Nays—Messrs. Bayard, Buckalew, Davis, Dixon, Hendricks, McCreery, Norton, Patterson, (Tenn.) Saulsbury—9.

Messrs. Grimes and Corbett, in favor, had paired with Messrs. Johnson and Vickers, against the bill.

The Chair appointed as Committee of Conference on the part of the Senate on the tax exemption bill, Messrs Sherman, Williams and Morgan.

At 6:30 the Senate atjourned.

HOUSE OF REPRESENTATIVES.

The SPEAKER announced the first business in order was the joint resolution to regulate the tariff for freights and passengers on the Union and Central Pacific Railroad, the question being on the previous question on a prior motion to refer to Committee on Pacific Railroad.

After debate, the previous question was sustained by a vote of sixty-three against sixty-seven.

After some discussion Mr. WASHBURNE, of Illinois, said he wished to submit a proposition which was this: that it should be considered a test vote, and those who vote for reference should be considered as in favor of the Pacific Railroad Company maintaining their exorbitant charges. The latter part of the sentence was almost inaudible on account of calls to order.

Mr. PRICE'S motion to refer to Committee on Pacific Railroad was agreed to—yeas eighty-three, nays forty-nine.

Yeas.—Messrs. Ames, Anderson, Archer, Ashley, (Nevada,) Ashley, (O.,) Axtell, Baldwin, Banks, Beaman, Breck, Benjamin, Bingham, Boutwell, Broomall, Buckland, Cary, Churchill, Chanler, Clark, (Kan.,) Covode, Dawes, Dixon, Dodge, Eliot, Farnsworth, Ferris, Ferry, Field, Galoday, Gravely, Griswold, Higby, Hill, Hooper, Hotchkiss, Hubbard, (Conn.,) Hurlburd, (N. Y.,) Jenckes, Johnson, Kelly, Ketchum, Knott, Latlin, Lincoln, Loan, Maloy, McClurg, McCormick, Miller, Moore, Morrill, Mungen, Myers, Newcomb, Nicholson, O'Neil, Perham, Phelps, Plants, Poland, Palesly, Pomeroy, Price, Pruyn, Raum, Robertson, Ross, Smith, Stevens, (N. H.,) Stevens, (Pa.,) Trimble, (Tenn.,) Trimble, (Ky.,) Twitchell, Upson, Van-Horn, (Mo.,) Van Trump, Washburne, (Mass.,) Welker, Williams, (Pa.,) Wilson, (Ill.,) Wilson, (O.,) Wilson, (Pa.,) and Woodbridge.

Nays—Messrs. Bailey, Baker, Barns, Beatty, Brownell, Barr, Cook, Cullum, Fox, Getz, Glossbrenner, Halsey, Holman, Hopkins, Hubbard, (W. Va.) Hunter, Ingersoll, Judd, Julian, Kelsey, Kerr, Koontz, Lawrence, (O.) Loughridge, Maynard, Mercur, Mullins, Niblack, Orth, Paine, Pike, Sawyer, Shanks, Sitgreaves, Spalding, Stone, Tabor, Taylor, Taffee, Van Auken, Van Horn, (N. Y.) Ward, Washburne, (Wis.) Washburne, (Ill.) Windom, Wood and Woodward.

Before taking a vote the rule forbidding members to vote on matters in which they have personal interest was read at the request of Mr. Holman.

Mr. WASHBURNE, Illinois, called up a motion, made 26th of February, by Mr. Washburne, Wisconsin, to reconsider the vote by which a letter from the Secretary of the Treasury, relative to the Union Pacific Railroad, was ordered printed.

The motion to reconsider was tabled.

Mr. FARNSWORTH, from Reconstruction Committee, reported back the bill to admit Alabama to representation in Congress, as follows:

WHEREAS, The people of Alabama, in pursuance of the provisions of an act of Congress, entitled "an act for the more efficient government of the rebel States," passed March 2d, 1867, and the acts supplementary thereto, have framed a Constitution or State government, which is republican in form; and whereas, at an election commencing the 4th day of February, 1868, a large majority of the legal voters of said State, voting at said election, voted for the adoption of said constitution; therefore,

Be it enacted, That said State of Alabama shall be entitled to representation in Congress as soon as the Legislature of said State, the members of which were elected at the election mentioned in the preamble of this bill, shall have duly ratified the amendments to the Constitution of the United States proposed by the Thirty-ninth Congress, and known as article fourteenth.

SEC. 2. That it shall be the duty of the commanding General of the military district in which Alabama is included to notify the members of the Legislature of said State, chosen at the election held in February, 1868, to assemble at the capital of said State within thirty days after the passage of this act.

SEC. 3. That the said State of Alabama shall be admitted to representation in Congress, and shall be recognized as a State, only on the following fundamental conditions: That the Constitution of Alabama shall never be so amended as to deprive any citizens or class of citizens of the United States of the right to vote by the Constitution herein recognized; nor shall be so changed as to allow any person to vote who is excluded from office by the fourteenth article of the amendment of the Constitution of the United States until the disabilities imposed shall have been removed in the manner therein provided, and Congress shall have power to annul any amendment to the Constitution of Alabama, or any act of the Legislature of said State contrary to the provisions of this section.

Mr. FARNSWORTH addressed the House in support of the bill. Official returns showed that seven thousand white men had voted for the adoption of the Constitution in Alabama. Over twenty thousand white men in Alabama were members of the Union League.

Mr. WILLIAMS, Pa., asked how the fact of seven thousand white men having voted for the Constitution had been ascertained?

Mr. FARNSWORTH replied that at many polls the officers of the election, marked the votes of colored men and those of white men.

Mr. KERR asked whether the result had been reported in accordance with any laws?

Mr. FARNSWORTH said the fact had not been returned by General Meade, and he did not know that any law required it.

Mr. SPALDING offered a substitute to the bill introduced in the Senate by Mr. Stewart.

Mr. BINGHAM moved to amend by striking out the third section.

Mr. KELLEY spoke in favor of the bill. In the name of the Republicans he asked Congress to admit Alabama, and proclaim to every refractory State in the South, and to every timid Union man, that every State that will bring a Constitution providing, as that of Alabama did, for the right of every man to hold office, to vote, and exercise other political rights, will be admitted, even if the terror and threats of clandestine lynching and hanging may have kept some from the polls.

Mr, STEVENS, Pa., offered an amendment providing that the right of suffrage shall not be denied to any State except for treason, felony, or other crime infamous at common law, but suffrage shall be forever universal and impartial, and that Congress shall have power to annul any act of Alabama in violation or derogation of acts with regard to suffrage, and that in case of the Legislature reducing suffrage below the universal right, all legislation admitting it into the Union shall be null and void.

Mr. FARNSWORTH gave notice that he would move the previous question at half past three o'clock to-morrow, and ask a vote at half past four.

Mr. PAINE presented a memorial from the Chamber of Commerce of Milwaukee, for reimbursement of expenditures on the harbor of that city. Referred to the Committee on Commerce.

Adjourned.

SOUTHERN STATES.

VIRGINIA.

RICHMOND, Va., March 26.—In the Convention to-day the Committee on Loan for expenses reported that General Schofield would see that the members of the Convention were paid to the 6th of April, and that a party had been found ready to negotiate the loan ordered by the Convention.

A proposition to disfranchise all who voted for secession candidates, &c., was defeated by a vote of thirty-two to fifty-one. Another proposition to disfranchise all who were secession candidates, or who spoke or wrote for rebellion, was defeated, thirty-two to forty-eight. The subject of disfranchisement was then indefinitely postponed, sixty-five to seventeen.

Gen. Schofield to-day appointed Rush Burgio, of Petersburg, Mayor of that city, the former Mayor having resigned.

MISSISSIPPI.

JACKSON, March 26.—Nothing important transpired in the Convention to-day. The preliminary trial of Wills Gibbon, accused of assassinating Captain Estelle, has occupied the Court for the past two days, and is not yet closed, all the evidence thus far points to guilt. The jail where the accused is confined, is guarded by United States soldiers.

NORTH CAROLINA.

WILMINGTON, March 26.—The Radical Convention at Lumarton yesterday nominated O. H. Dockery for Congress in this district.

New Jersey Legislature.

[By Telegraph to the Pittsburgh Gazette.]

TRENTON, March 26.—A bill has been introduced into the lower house of the Legislature making the punishment for murder in first degree hanging or imprisonment for life, to be determined by the jury, as in Illinois and Minnesota.

CITY COUNCILS.

Special Meeting—The Appropriation for Roads—Survey Committee—The Water Extension Bonds—Widening Sidewalks on Fifth Street—Nicholson Pavement on Wood Street, &c.

A special meeting of City Councils was held Thursday, at 2 o'clock, to consider the ordinance defining the duties of the Survey Committee, adopted in Common Council at the last meeting, and a resolution adopted in Common Council at last meeting, authorizing the transfer of $9,000 from Appropriation No. 13 to No. 23, the former of which was laid over in Select Council and the latter non-concurred in, for the reason that there was no Appropriation 23.

Select Council.

Members present—Messrs. W. R. Brown, A. M. Brown, Cochrane, Coffin, Dickson, Dunn, Gross, Jones, Laufman, McClelland, McEwen, McKibben, Ogden, Rafferty, Shipton, Tanner, Wainwright, and President McAuley.

Absent—Messrs. Coyle, Gallaher, Herdman, Kehew, Morrow, McClintock, Phillips, Rees and White.

On motion of Mr. Tanner, the reading of the minutes was dispensed with.

The President stated the meeting had been called at the instance of the Survey Committee, and desired some member of the Committee to state the object for which it was called.

Mr. W. R. Brown, Chairman of the Water Committee, said that he had some important business to present relative to the issuing of bonds of the Water Loan, the ordinance previding for the same having been postponed for further consideratioa at the last meeting.

Mr. Gross, of the Committee on Surveys, said that Committee had deemed it necessary to call a meeting of Councils in order to have the resolution passed in Common Council at last meeting, transferring $9,000 from Appropriation No. 9 to No. 23, in which S. C. non-concurred, so amended as to meet the views of Select Council and passed. The Committee were desirous of commencing the work allotted to them as soon as practicable, and could not proceed until the appropriation was made, and he, therefore, moved the matter be taken up.

The President then read the ordinance and resolution referred to.

Mr. Gross moved to amend the second section of the ordinance, which makes the decision of the Survey Committee final relative to disputes about the grades and locations of streets, by requiring them to report their decisions to Councils for approval. The amendment was adopted, and the ordinance as amended read three times and passed.

The resolution transferring $9,000 from appropriation 13 to 23, adopted in C. C. at last meeting, was then taken up.

Mr. Gross said as the money was intended for the use of the Survey Committee, and there being no appropriation 23, he would move to amend by adding the words, "or to the Survey Committee," after the word twenty-three. The amendment was adopted.

Mr. Ogden then moved to amend by making the amount $5,000 instead of $9,000.

Mr. Gross said the Committee had carefully examined the matter and were satisfied that $9,000 would be barely sufficient to accomplish the work to be done, and he hoped Councils would not interfere with the well digested plans of the Committee by adoptng the amendment.

Mr. Tanner said he would favor the amendment if he thought the gentleman had given the matter as careful consideration as the Councils had. and could give plausible reasons for making the reduction, otherwise he would have to vote against it.

Mr. Ogden said he made the motion on general principles.

Mr. A. M. Brown, thought the Committee the best judges of the amount required to accomplish the work allotted to them. and he was not afraid of them squandering the money.

The amendment was not adopted.

The resolution, as amended by Mr. Gross, passed finally.

Mr. W. R. Brown called up the ordinance providing for the issuing of bonds to the amount of $250,000, of the water loan, which was submitted at the last meeting and laid over for further consideration.

The President read the ordinance, of which we published an abstract in the proceedings of last meeting.

Mr. Rafferty moved to amend the second section, which fixes the rate of interest at six per cent, so as to read seven per cent. Adopted.

On motion of Mr. Brown, the ordinance as amended was ordered to a third reading and passed finally.

—In Common Council, Mr. Reynolds, of Lawrenceville, moved to concur.

Mr. Robb, Sixth ward, moved that the ordinance be postponed until next meeting. He had not seen the act of Assembly authorizing the loan, and thought nothing would be lost by postponement.

Mr. Herron, Pitt township, said the matter had been fully considered by the Water Committee, and passed upon. Sufficient publication had been given, and it was important to the outside districts that immediate action be taken.

Mr. A. Scott, Lawrenceville, also urged immediate action. The machinery of the water works was in bad condition, and contracts had been entered into on the strength of the act authorizing the loan.

Mr. Herron said there was great danger even of the old districts of the city being left without water, in consequence of the condition of the water works machinery.

Mr, Sims, Third ward, asked the gentleman from the Sixth ward (Mr. Robb) to withdraw his motion for postponement.

Mr. Robb said he had no desire to be an obstacle. The matter had probably been considered by the other branch, and he would withdraw his objection.

Mr. Davis objection to concurrence.

Mr. Reed, Seventh ward, called the yeas and nays on the motion to concur, resulting as follows:

Yeas—Ahlborn, Berger, Boggs, Caskey, Carroll, Daub, Friday, Fitzsimmons, Gerner, Hemphill, Herron, House, Jeremy, Kremer, Mawhinney, Meyer, Moorhead, Palmer, Reed, Reynolds, Robb, Rosewell, Scott, A., Scott, J. R., Sims, Torley, Weldon, Welsh, Zern, and President Tomlinson—30.

Nays—Batchelor, Davis and Torrens—3.

On motion of Mr. Ogden, the rules were suspended, in order to allow the transaction of other business.

Mr. Ogden submitted the following:

Resolved, That our Senators and Representatives be requested to oppose the passage of any bill relating to the inspection of salt in the city of Pittsburgh without first submitting the same to Councils. Adopted.

Mr. A. M. Brown presented a petition from business men on Fifth street, asking Councils to pass an ordinance authorizing the widening of the sidewalks on said street two feet on each side. The petition was accepted.

Mr. A. M. Brown, submitted an ordinance providing for the widening of the sidewalks on Fifth street, which provides that the vaults shall not be extended beyond the extended limits.

Read three times and passed.

The President read an ordinance, authorizing the construction of a board sidewalk from Hazelwood station on the Pittsburgh and Connellsville Railroad to the Squirrelhill road. On motion passed to a second reading.

Mr. A. M. Brown, a petition asking the passage of an ordinance prohibiting the drivers of drays, carts, and other vehicles, from interrupting funeral processions. Laid over.

Mr. Cochrane, a petition asking Councils to pass an ordinance providing for the paving of Spring alley from Bush to Morris street. Referred to Street Committee to report an ordinance.

In all business not otherwise noted C. C. concurred.

Adjourned.

Common Council.

Members present: Messrs. A. H. Ahlhorn, C. W. Batchelor, W. H. Berger, W. R. Boggs, J. Caskey, D. W. C. Carroll, H. Daub, A. J. Davis, John Fitzsimmons, Wm. Friday, G. Gerner, J. H. Hare, Jas. Hemphill, R. G. Herron, E. House, C. Jeremy, F. C. Kremer, Jas. Mawhinney, H. Meyer, W. J. Moorhead, J. B. Palmer, N. P. Reed, S. W. Reynolds, R. Robb, T. Rosewell, A. Scott, J. R. Scott, D. Sims, J. J. Torley, F. Torrens, J. G. Weldon, T. W. Welsh, P. Zern, W. A. Tomlinson, President.

Absent: Messrs. Wm. Barnhill, John Barton, J. G. Beales, J. M. Brush, C. A. Dravo, J. H. Hillerman, G. F. McCleane, J. Rebman, J. Verner, J. Vick.

The minutes of the previous meeting were read by the Clerk, Mr. H. McMasters, and approved.

President announced the special meeting had been called at the instance of the Survey and Water Committees.

Mr. Torley, Third Ward, moved while waiting for business from Select Council to act upon such matters as might be presented. Carried.

PETITIONS.

Mr. Weldon, Third ward, presented a petion for about one hundred and fifty feet of water pipe on Mercer street between Webster and Whiteside's alley, the street being paved and the citizens residing thereon very badly off for water. Referred to Water Committee.

Also, a petition from Peter Wolfe for sewer on Marion street, Eighth ward. Referred to Street Committee, with power to act.

Also, a communication for the opening of Rose street, in the Seventh ward. Received, and Street Committee instructed to report an ordinance.

Also, a petition of owners of property on Wood street, between Fifth and Sixth street, for Nicolson pavement. Referred to Street Committee, with instructions to report an ordinance.

An amendment, offered by Mr. Weldon, to include the square between Sixth and Liberty street, was withdrawn.

Mr. A. Scott, Lawrenceville, presented a petition for the grading of Garden alley, between St. Mary's avenue and Chestnut street, Lawrenceville. Referred to Committee on Streets.

Also, a resolution authorizing the Street Commissioner, Mr. Hill, to collect wharfage in Lawrenceville. Adopted.

Mr. Ahlborn, a petition from property holders for the grading and paving of Fairview alley, in Leech's plan of lots, Lawrenceville. Referred to Street Committee.

Mr. Caskey presented a petition for the opening of Brewery street, Eighth ward, to the river. Referred to Street Committee

None of the business in Common Council was acted upon in Select Council.

Adjourned.

Albany Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

ALBANY, March 26.—The supply of cattle for the week amounted to 400 head, including a few choice to extra, which were sold as high as $10,75, and about 1,000 good butchering stock. The remainder were of an inferior quality. The demand is comparatively active, and sales were made of 2,000 head at $6,50. Sheep are in good request, at $7@9, with receipts of 13,600 head. The supply of Hogs amounted to 5,000 head, and among the sales were 300 head from Chicago, averaging 235 pounds at $9,87½.

ON THE DIVAN.

SONG OF THE PERSIAN TURKS.

BY R. H. STODDARD.

Do not yet put on your slippers,—
I shall die!
Do not take your veil, beloved,
Do not fly!
Ah! so sweet your conversation,
Do not go:
Stop a minute, Rose, my darling,
Leave not so!
'Tis the very hour for prattle,
'Tis the hour,—
Oh, my darling! Oh, my sweetest
Poppy flower!
See, the ceiling of the chamber,
Painted fine;
Rose was never like your blushes,
Rose of mine!
Oh, my sunflower! my beloved,
Linger here:
Linger,—I have lost all patience,
All, my dear.
Sweetheart! 'tis a lonely chamber,
No one near:
Rose of Khansar, sweet as amber,
Blossom here!
Hurry, hurry on the wedding,
Or I die:
Nay, I'm dying, dead already,
If you fly!—
Sweetheart, with your eyebrow bending
Like a bow;
And your arrowy glances flying,
So, and so:
Stop, my love, another minute—
Do not go!

—The Cincinnati *Enquirer* has made a really astonishing discovery. If the President is deposed, he will again become Vice President, and as such will of course immediately take possession of the empty Presidential chair.

—The *Montgomery Mail* and the *Mobile Register*, published in Alabama, show signs of returning sense and an attempt at good feeling. The *Register* says "we of the South honor the Northern soldiers because they fought us gallantly and died like men in defense of their cause.

—A woman in Vermont gave a large party the other day to children under one year of age. Her own young son being host. The mothers were invited, too, and waited on the young people while they were enjoying their banquet.

—Santa Cruzians are turbulent, because their island that was not included in the sale of the Danish West Indies to the United States. It would probably be well for those people, before making trouble, to wait and see what the United States has to say to the transfer of their neighbors.

—In Evansville, Indiana, last Sunday a negro in the employ of Mr. Jack Robinson, went into the room where that gentleman and his wife were sleeping and attacked them with an axe. Mr. Robinson was terribly mangled before the negro left and made his escape across the river.

—A man named Shannon has been arrested in Michigan, and a woman named Wells in Chicago, for the stealing of $20,000 from the husband of Mrs. Wells. The parties reside at Weston, Missouri, and were about fifty years of age besides having occupied prominent and respected social positions.

—A Chicago paper says that John T. Alexander, of Illinois, after the first of May will cease to bring his cattle over Pennsylvania roads and turn them over to the Erie line. This item is of importance when one learns that Mr. Alexander moves now over Pennsylvania railroads from five hundred to eight hundred head per week.

—Temple Bar is soon to be placed among the things that were. The antique gate-way is tottering and unsafe, and the fiat has gone forth for its removal. It is one of the most ancient of London city land-marks, and its decadence and destruction will be regretted by many, probably, however, by none more than the Messrs. Child, the bankers, who have for a long time used it as a warehouse in which to store their accumulated piles of old ledgers and bank books.

—The Philadelphia *Press* has a correspondent who writes over the signature of "Olivia," Olivia's letters have a feminine tendency, for instance in speaking of a recent levee at the White House, she says. Gen. Hancock was there, the handsomest man a women's eyes have ever rested upon in the military service. No matter about his record in New Orleans; no matter about the dubious reasons that brought him to Washington. Queen Bess, one of the greatest women who ever lived, would have made him Prime Minister at once.

—The wonder of the world was excited when Madame Ristori made her first tour through the United States, but Fanny Janauscheck has eclipsed her. There never was, in the annals of the stage so brilliant a triumphal march as her's has been through the West. At every city she was received with torchlight processions, serenades, or similar honors, and at many places more substantial testimonials were given. At Cincinnati she received a magnificent gold medal; at St. Louis a splendid silver crown; at Chicago a valuable and massive tea service of five pieces, and at Millwaukee a parure, consisting of a gold watch and chain, diamond sleeve-buttons and ear-rings. Deputations came from distant cities to request her presence, and in all the places where she filled engagements, she was pressed to remain and play longer as on every occasion the houses were crammed to overflowing.

A New Discovery in Telegraphy.

We were recently shown by Prof. A. C. Rideout, of the Hillsdale Business and Telegraphic Institute, a new and important discovery in the art of transmitting messages, and constructing telegraph lines, which we are confident, must prove of great value, not only to telegraph companies, but to all receiving benefits therefrom. The discovery is one made by Prof. Rideout after much study and research in the science of electricity, and consists in the application of entirely new principles. The principal points of superiority of this new application of electricity over the system now in use are as follows, and must force themselves favorably upon the minds of those at all acquainted with the many difficulties now to contend with in transmitting messages, as of great importance:

1—One battery only is needed; whereas on ordinary telegraph lines two are employed—one to operate the main circuit and the other the local—but in this peculiar arrangement both circuits are operated by the same battery.

2—A key and sounder are the only instruments used for transmitting and receiving messages—thus dispensing with the use of the relay entirely.

3—It is altogether free from atmospheric disturbances, and messages can be transmitted in dark, damp, rainy weather with as much facility as at any other time.

It is constructed upon purely scientific principles, and we think when thoroughly tested will prove a perfect success.—*Chicago Tribune.*

A Duel in New Orleans.

A desperate duel took place about five o'clock on Friday afternoon between two gentlemen, one Mr. N., of French origin, connected with the financial department of one of our theatres, the other, Mr. B. a creole, of this city. The challenging party was the theatre gentleman, and Mr. B. selected the French navy broad sword as the weapons, which were sharpened to a very keen edge. The combat took place back of the Orleans ball room, in the new hall, erected on a portion of the site formerly occupied by the burnt up Orleans Theatre. The parties were seconded by experts like themselves in the art of self-defence, and it is probably owing to this fact that the duel did not end fatally. The combat lasted a few minutes, and concluded by Mr. B. cutting Mr. N. deeply, but not dangerously, directly over the right temple, Mr. B. at the same time receiving a serious wound in the left wrist in his successful endeavor to ward off a deadly blow of his adversary, aimed at his abdomen. The combat was then arrested, and the wounded parties received the attention of their physicians. Mr. B.'s wound is said to be of a severe character, and it is feared that the main artery of his injured arm has been severed. The floor upon which this desperate duel took place was literally covered with blood, which flowed profusely from the wounds of both combatants. The cause of the duel was of a personal character, and for a wonder no lady was connected with the affair.—*New Orleans Picayune, March* 15.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, March 26, 1868.

CRUDE—The market was if anything a shade firmer to-day, and spot oil may be quoted a quarter higher—8¾c, against 8½c yesterday and the day preceding. We can report 133 bbls at 8½c, bbls returned; 1000 bbls in bulk at 8¾c; and 2000 for June and July at 9¼c. Notwithstanding this slight advance and firmer feeling, the trade remains in that unsatisfactory and unprofitable condition it has been in for months past; an advance, prospectively speaking, affords no margin to the dealer, for the reason that as soon as there is an advance here, there is a corresponding advance at Oil City, and therefore, the legitimate operator is no better off than before—the one is more than an offset against the other. As we have repeatedly stated, oil is too much inflated at Oil City for this market, though we do not find fault with our friends up there for squeezing all they can out of it—there is nothing wrong about that—they are perfectly right in getting the best price the market will admit of, even if it does work against the interest of the trade here. Nor are we disposed to find fault with buyers from Cleveland and other points, and speculators, for keeping up prices; if they can afford to pay $3,10 to $3,15 per bbl, or even $5, that is their business, not ours. We only wish to have it understood that Pittsburgh cannot, at present prices, there and here, enter the field with any hope of success—at least that is the way things look now.

REFINED—The market for bonded oil is firmer, and prices are a shade better, but sellers are still very scarce. We can report 500 bbls for the first half of April, at 25½c; 1000 for last half of April, at 25½c; and it was reported that there was a sale running from May to December, at 26c, and a half advance for each subsequent month. We heard of an offer to sell a line at 26c for May 26½c for June, and 27c for July; March is quoted at 25c; April 25½c, May 26c, and June 26¼.

—Since the above was put in type, we have the following additional sales reported: Crude—288 spot, at 8¾c; 700 do do at 8¾c; 800 do do at 8¾c. Refined—250 bbls spot on private terms; 1000 bbls all April, at 25½c.

ARRIVALS—The following are the reported arrivals of oil by the Allegheny River to-day:

The banks have taken to steps yet towards another meeting, and the Treasury is not relieving the money market to-day, Mr. Van Dyck having sold about $500,000 in gold and bought about the same amount in seven-thirty notes. Private telegrams from Washington report McCullough going to ease the market, but in what shape, is not yet stated.

Railroad market animated, particularly on Central and Erie, which fluctuated rapidly. Central opened at 116¾, advanced to 118⅞, fell to 117¾, davanced to 118½, cash, and 119¾, buyer, thirty days, and closed at 118½a118¾. Erie opened at 66¾a67, ran up to 69½, fell to 68¾, advanced to 69¼, and closed at 68⅞a69. Market closed strong under rumors from Albany favorable to Vanderbilt. Western shares are participating in the general strength. A heavy decline in Pacific Mail causes considerable comment on the street. The Panama Railroad has declared the usual quarterly dividend of six per cent., and there are rumors of an extra cash dividend of twenty per cent.

RIVER NEWS.

The river was apparently at a stand last evening with fourteen feet in the channel by the Monongahela marks. The weather has got somewhat colder, but we should not be surprised to see rain within the next fourteen hours. Gentleman who arrived from the east yesterday report quite a snow storm east of Harrisburg on Wednesday night—we had a little snow here, but it did not amount to much.

The Kenton, from Cincinnati, got in yesterday about noon, and the St. Charles, from the same point, was due last evening, and will doubtless be found in port this morning. The Armenia, from St. Louis, was due last night.

The J. N. McCullough arrived and departed, and the Robt. Moore, from Portsmouth, will be found in port this morning.

The Echo departed for Oil City with a very good trip, and the Ida Rees No. 2 is due here this morning. The Rees will return as usual on Saturday afternoon. Capt. Rees in commaod.

The Ingomar, which boat sunk below Wellsville on Tuesday, was succesfully raised on Wednesday, and arrived here yesterday. The towboat James Gilmore rendered valuable assistance. The damage to her hull is slight, and it is thought that she can be put in condition to resume business to-day. Her freight it is said, was not damaged.

The R. C. Gray, Captain Anderson, is filling up rapidly, and will be ready to take ner departure for Memphis and New Orleans to-day. The Wauvnitta will be ready to sail for Missouri to-day or to-morrow. The Messenger, Capt. Jesse Dean, will be the first boat out for the Upper Mississippi, as will also the America, Capt. Poe, for Nashville.

The Glendale, Captain Hare, is announced for St. Louis and the Missouri river.

A late St. Louis paper says: There is a better feeling in the mountain trade, and first-class boats are now enabled to command a better rate. Those boats that have contracted for freight to Benton at less than five cents will will find some trouble before they get through, especially with the prospects for water in the Upper Missouri this summer.

We extract the following items from the Cincinnati *Gazette*, of Wednesday: The official investigation of the causes which led to the explosion of the boilers of the Magnolia, recently, is now in progress at the Custom House.

The Bellevernon arrived from Wheeling and departed for St. Louis yesterday without putting off or receiving freight here. Her bills lading call for 639 tuns, one item of which was 10,000 kegs nails from Wheeling. She also had about eighty cabin passengers. Pilots, Captain Wm. Fuller and Chas. Boyer.

The Leonidas arrived from New Orleans yesterday. She has 414 bales of cotton for Pittsburgh.

The Lorena, Pittsburgh to St. Louis, passed down yesterday heavily loaded. Pilots, Albert Williamson and Russell G. Shinkle.

The Yortown, from Pittsburgh, bound for the mountains, passed down with all could carry, mostly St. Louis freight. Pilots, James Montague and Captain Wash Ebert.

The Kate Robinson, from Pittsburgh, arrived Monday night, with 200 bars of iron, 1000 kegs nails, 1000 boxes glassware, 500 boxes window-glass and 66 barrels stearine, for this city, and considerable freight for Louisville. She reshipped her Vicksburg and New Orleans freight on the Silver Spray.

At New Albany, the mate of the Leonidas, Mr. Geo. Clinton, had three fingers so badly mashed that he may lose them entirely, by being caught in a snatch block, while in the act of lowering a boiler.

The Minneapolis *Tribune* says: The ice on the river shows signs of weakness, in many places, and in the pond above the mills there are a number of places where the water is visible. A rise is reported in the Minnesota, and it is thought by many that navigation will open before April 1st. We doubt it.

A St. Louis telegram, under date of Tuesday, says: Thunder storm and heavy rain this morning. The river is rising fast. Another rise is announced at St. Paul, and an early opening of lake Pepin is predicted. Yesterday thirty steamers were at the wharf, loading and discharging freight. Rates to New Orleans advanced about 50 per cent. Another boat, the Only Chance, leaves for the mountains to-day. The Abeona returns to Cincinnati. The new mountain steamer was launched yesterday at Carondelet. The steamboat Zephyr is to be sold to-day by the United States Marshal at St. Joseph. The claims against her amount to about $6,000.

Speaking of the Hickey levee, the West Baton Rouge *Sugar Planter* says: "We are highly gratified at being able to announce the near completion of this stupendous work. Ten days more will suffice to witness the closing labors. It is one of the best levees ever built in this State, and is so pronounced by all who have seen it. No quantity of water resting against it could possibly cause a crevasse, while it has been built so far from the river that many years must elapse before another levee will be repaired from caving banks: The work has been visited by hundreds of people, and all express their admiration of the faithful manner in which the work has been done. This will be good news to all whose property is protected by this levee."

The St. Louis *Dispatch*, of Monday, says: The Sallie, of the Copolin line, arrived from Pittsburgh last night, with a big trip of freight and people, and will receive some freight here for the mountains, and will leave, probably, before the time at which she is announced.

The Cincinnati *Commercial*, of Wednesday, says: The passed up yesterday, with a tow of eight or ten barges, laden with corn. It is destined for Pittsburgh. Capt. McGill telegraphs us the Belle Lee arrived at Memphis yesterday, two days and 23 hours out from New Orleans—the same time she made last trip—running against a big river all the way up. She will arrive at Louisville to-morrow night, five days out from port to port. It is our melancholy duty to announce the death of the wife of Captain W. G. Coffin. She died at the Spencer House last evening. Capt. Coffin is en route to this city from Tennessee river with the steamer Mary Erwin.

Says the *Enquirer* of same date: Six barrels shipped on the Emma No. 3 at New Albany, as carbon oil, for Winchester, Va., were yesterday discovered to contain benzine, and were transferred to one of the Booth barges for Parkersburg. They were shipped in the name of the United States Solar Oil Company, and will likely get that corporation into trouble.

The Emma No. 3 didn't get out for Pittsburgh till last evening.

The Leonidas arrived from New Orleans. She has 400 bales of cotton for Pittsburgh. Captain Sheddon was undecided last evening whether to go up or reship.

Capt. David Blashford was nominated by the Democratic City Convention yesterday for Wharfmaster.

TO CORRESPONDENTS.—We pay no attention to communications received unless accompanied by the genuine name of the correspondent, We make no exception to this rule.

IN our editorial statement, on Wednesday, relative to the affairs of the Mutual Benefit Life Insurance Company, of Newark, a typographical error was made by omitting a figure 2. The balance, last year, of receipts over expenditures, was $2,675,000 instead of $675,000, as printed,

THERE are reports that the Arkansas election has resulted in the rejection of the new State Constitution. There is another report that the election has not yet closed, the polls being continued open until the evening of to-day, the 27th, by an order from the army headquarters, the high waters and bad roads having made it impossible otherwise to secure full expression from the citizens. The latter report is evidently the most probable.

SUNDRY little difficulties in the way have thus far so effectually precluded the House from voting the needful appropriation to pay for the Alaska purchase, that it is stated the Russian government, with the kindest and most considerate indulgence, have granted us an extension of time in the premises. Seriously, however, our government has so effectually succeeded in compromising our national integrity in this matter, that the House will ultimately find it expedient to forego its ideas of punctilio in the premises and put an end to the matter by voting the money.

THE NORTH GERMAN treaty providing for voluntary expatriation was ratified by the Senate yesterday, being only amended in one slight particular. This amendment we presume to be in the direction indicated by Minister BANCROFT, a very interesting and full letter from whom explaining the verbal understandings upon which the treaty was drawn up, was laid before the Senate. It is understood that he advised the State Department that the terms of the treaty were understood by both parties to be applicable as well to citizens already naturalized as to future expatriations. The amendatory ratification doubtless incorporates that understanding in the text. Mr. BANCROFT's letter has not been given to the press.

OUR STATE FINANCES.

The letter of our Harrisburg correspondent, "Allegheny," makes a clear and intelligible statement of the condition of the finances and of the precise character of the measures of legislation which have been proposed affecting the Treasury. He confirms the opinion already expressed in the GAZETTE, that there exists no ground whatever for apprehensions as to the ability of the Treasury to meet all the obligations upon it. He explains the bearing of the several propositions pending, corrects the erroneous figures which ignorant or interested parties have industriously given to the public, and briefly but significantly presents the whole matter as one rather concerning a greater or less surplus constantly standing over in the Treasury, than as really endangering the credit or financial integrity of Pennsylvania. As a candid, straight-forward expose of facts, in the interests of the tax-payer, "Allegheny's" letter is a very valuable contribution to the stock of public information.

SENATORIAL PURITY.

The Senate, sitting as a Court of Impeachment, has, by several of its votes, given unmistakeable proof of its title to the public confidence, as an impartial tribunal. The partisan accusation that the Republican majority would pronounce the President guilty, regardless either of the forms of the law or of the substantial merits of the case itself, has been effectually disproved, even now while yet the Senate is arranging only the preliminaries of the hearing. We challenge the citation of an instance in the history of political organizations, where representative men, charged with responsibilities directly affecting the present and future status, the very existence of the great party with which they are identified, have exhibited a more generous, unselfish disregard of mere partizan influences, or have risen more promptly and effectively to a just conception of patriotic duty upon the higher plane of statesmanship. Upon every question of an interlocutory nature, more than one of these having important bearings upon the final disposition of the great issue before them, there have been found a large number of Republican Senators, who, in the exercise of their personal judgment, and upon the paramount responsibility of their oaths as components in a judicial tribunal, have given their votes irrespective of political opinion, and not in accordance with the action of the greater number of their political friends. While some Senators have voted one way, others, comprising a majority of the Republican members, have voted in another, each and all of them being equally controlled by their several individual judgments, and recognizing individually their highest judicial responsibilities. Nearly one-third of a Republican Senate have thus been found differing from their brethren upon points of very great importance and have not hesitated severally to square their actions by their conscientious conclusions, regardless of minor considerations. In this they have afforded to the country a complete refutation of the unjust charge of partizanship, of a foregone determination to try the accused without preserving the forms of justice, and to convict him regardless of any testimony. When the hour shall come, if it ever does, that we see Mr. Johnson's Democratic friends and supporters in the Senate emulating this conscientious and high-toned devotion to judicial impartiality, we shall be ready to give them the same credit for it.

That more than a constitutional majority of the Senate will be found consenting, upon proper proof of guilt, to the removal of the President from office, there can be as little doubt. We do not hesitate to say to our readers to-day, putting it on record as an estimate of the result, that, of the forty-two Republican members of the Senate, at least forty are morally certain to sustain the impeachment when the House shall have established its articles by adequate proof. Of the two possible exceptions, one will not vote at all, unless his duty to the State he represents shall require his vote, and then it will be given constitutionally and fearlessly, and without exposing him to the slightest imputation upon the purity of his motives. We think that but one Senator, usually classed as a Republican, can be found who will hesitate to adjudge the issue upon the clear and simple ground of established guilt or vindicated innocence. Let the House establish the commission by the President of any one of the impeachable offences as laid in its articles, and the entire body of the Republican Senators, with the bare possibility of a single exception, are morally certain to stand squarely up to their duty.

We hope that no intelligent Republicans will suffer themselves to be coaxed or frightened into believing that certain Republican Senators will, on the final issue, prove false to themselves and to the public necessity. A number of journals, professedly Republican—some of them edited by "old granny" politicians, fossil remains of extinct political cliques, and others manipulated in the secret interests of the great criminal now on trial, and willing to wound but yet lacking the courage to strike an open blow at the party of popular rights—have been occupied since these proceedings commenced, in sly allusions, covert insinuations and disparaging inuendoes against one or another of a half-score Republican Senators, usually naming them and assigning all sorts of personal or political motives, as likely to lead them severally to prefer Mr. JOHNSON's retention in office. It is not worth our while to specify the names of any of these gentlemen, whom too ready apologists for a treachery wished for but never to be realized, have industriously slandered by their shameful imputations. Senators whose convictions of duty are so powerful as to lead them, even in these days of unrelentingly bitter partizanship, to rise above political associations and listen only to the calls of conscientious duty, are not very likely to be swayed at last by petty intrigues or personal jealousies.

We are content, therefore, with re-assuring our readers that the President's impeachment has been undertaken, is to be conducted and will have its final issue in accordance with the loftiest considerations of duty, and irrespective of any personal considerations. It is gratifying to find ourselves able to add that, as this great trial proceeds step by step, we recognize fresh encouragement for our belief that the day is rapidly drawing near for the relief of the Republic from its most dangerous enemy, and for the restoration of peace and a perfect union to a long distracted people.

EQUALITY OF RIGHTS.

We believe in the Equality of Political Rights; that is, that all persons of adult years and possessing ordinary reason, are by nature and of right equal to each other both before and behind the laws—both in determining what the laws shall be, and in the exercise of immunities and privileges growing out therefrom. We do not expect soon to see the conception we have of justice in this regard actualized in this country or in any other; but we mean, according to the measure of strength given us, to do our part towards hastening the grand consummation, which is certain to come, however long it may be delayed.

Two classes of men hinder the progress of public opinion in the true direction, on this subject, and, perhaps, in about the same proportions.

The first of these classes embraces those who have a clear perception of what is true, and just, and good, but have no patience with their fellows whose insight is not so sharp and whose mental processes are hence all slower—it may be, less healthy. Convinced as to the wisdom, rightfulness, and expediency of a given measure or policy, they insist upon its immediate adoption, and are apt to fall to railing if they whose help is necessary do not move as eagerly and as steadily as themselves. This comes from not duly considering that in all great movements for political or moral reform, a period of discussion necessarily precedes the moment for final action. Thousands and tens of thousands of individuals cannot be induced to act together for the attainment of a common end until their judgments respecting the particular topic shall be assimilated and their enthusiasm fused to a common heat and for the common purpose. These are indispensable pre-requisites; and until they exist, attempts to force conclusions and compel accomplishments must end in failure and disappointment. Only when the period for argument and appeal has been fairly used and exhausted is it of practical value to seek a popular verdict. True, it requires a stern self-possession to wait, when the end postponed is ardently desired; but a clamorous and unrestrained impatience has lost many an issue that might otherwise have been gained in due season.

The other class of hinderers is composed of persons who are destitute of strong convictions and emotions on all subjects. They deem it unjustifiable, if not unphilosophical, to be in earnest about anything, except taking care of their own chances in the lottery of life, and especially of their own promotion in the field of political adventure. Having no ambition to mold public opinion into conformity to any ideas of superior Right, or Truth, or Justice, they are mainly, if not exclusively intent, on so flattering the prevalent humor of the hour as to find their individual profit by advancing or receding as the tide of sentiment ebbs or flows.

For the last thirty years it has not been difficult to trace the harmful movements of this class in the political history of the United States. When the discussion of slavery opened, and in all the vicissitudes of its progress, they alternately evinced courage or cowardice, just as the skies were bright or overcast. As each fresh step towards the ultimate goal was proposed, they revolted and turned the other way; but this lasted only for a season. In the end they were constrained by the pressure of opinion and events to do the very things they had before declared ought not to be done. In this way not a few of them were compelled to endorse the Proclamation of Emancipation, the raising of Negro Regiments, the Civil Rights Act, and the authorization of Negro Suffrage in the revolted States. While they endorsed these measures they felt a strong degree of hesitancy and an ardent desire to be delivered, by some sudden interposition of Providence, or some humiliating fickleness of public opinion, from doing what they regarded as an unpleasant duty or necessity. Having gone so far it affords them, just now, solid satisfaction to feel warranted, in consequence of what they account a drying up of fanaticism to denounce Negro Suffrage, and even to applaud the recent decision of the Supreme Court of this Commonwealth, delivered by Judge AGNEW, denying an equality of rights in public conveyances to certain individuals on account of their color.

The same vacillation is apparent in this class of hinderers if their course on impeachment is closely inspected. At first, they were stoutly opposed to it. They could discover no motives to it in the laws or the conduct of the President, but only in what they denounced as wild schemes of the Radicals. Last autumn a vast change came over their conceptions. They then regarded the President as a bold and bad man, who had invaded at once the prerogatives of the co-ordinate departments of the Government and the liberties of the people, and in so shameful a way as to demand his summary arraignment, trial and deposition. About the time Congress opened, the wind of their conceits shifted. As they then judged, there was no ground for impeachment; the President had not exceeded his powers or failed in his duty in a single respect; and the allegations against him were palpable shams undeserving of serious consideration. Now, they have changed again, and are loudest among the loud in denouncing the behavior of the President and in demanding his speedy and final expulsion from the high position he prostitutes.

These are simply specimens of the lamentable infirmities exhibited by men who are controlled by no fundamental ideas, but are literally afloat on a mighty stream of events, which drops them into eddies or hurries them down rapids independently of conscious volitions on their part. One of the chiefest of this class was recently reported as embodying his governing motive in political affairs by confessing that he was conservative when the people wanted him to be so, and as radical as any body when that course was demanded by the multitude.

Just now, not a few of this class are finding employment in denouncing Negro Suffrage. If they were content to affirm that no issue relative to the right of the blacks to vote was joined and trying in the current canvass in Pennsylvania, they would express the simple fact. The Republican State Convention maintained an instructive silence on that head. In the Legislature, Mr. HICKMAN's proposition to amend the Constitution so as to allow black men to vote failed signally to enlist Republican support. Not a single Republican County Convention has ventured to demand Equality at the ballot boxes for all citizens, irrespective of color. We doubt not, if the naked proposition to let the blacks vote should be submitted to the people of this Commonwealth, it would be rejected by a decided majority. We are not disposed to evince our valor by dashing our heads against an escarpment of solid rock. Quite as little are we inclined to stultify ourselves by objuring convictions which have their origin in the depths of our nature. As we have done in numerous cases hitherto—we can wait, with an abiding faith that in the end, and much sooner than our opponents imagine, the great law of Human Equality will find its vindication, not in some obscure corner, or for a day, but in the sight of the sun, and for all the ages.

THE Democratic scheme of taking off Presidents by poison, or other violent methods, appears to have been imported from the United States into Panama. Gen. Olate, President of that State, expired thus on the 3d inst. If the Democrats would only export themselves, as well as their favorite idea, they would be entitled to thanks. Instead of that they are engaged in sending threatening letters to Washington, promising to do terrible things in the way of assassination, unless the Republicans will consent either to abdicate authority in the nation, or to wield the powers of the Government under dictation from their opponents.—*Gazette.*

The man who wrote the above should not complain of "Brick" Pomeroy's extravagant expressions.—*Post.*

We do not recollect saying anything whatever about BRICK POMEROY. It was our good fortune to be for many years on terms of personal intimacy with a gentleman who was for successive terms a Democratic member of Congress from Pennsylvania. He understood the principles and habits of his party, knowing more than he would publicly avow. In private conversation, he never concealed his belief that the Democrats poisoned both HARRISON and TAYLOR. Nor did he stop there. He used to say, with emphasis, "the scoundrels attempted, in like manner, to destroy BUCHANAN, in order to make BRECKENRIDGE President, and they came d—d near making a victim of me." Now, it may be wrong in us to give that gentleman credit for sense and sincerity; but, from our knowledge of him, we cannot help doing so.

ANDREW JOHNSON'S "party" has been for three years afflicted with a chronic *diminuendo.* Entering upon his functions as Vice President with a tolerably fair and unembarrassed title to the support, politically, of the most powerful party ever organized in the Republic, he has so conducted himself that parties, factions, cliques, dependents and personal friends have, in regular turn, one after another, given him up, until now, at last, in the very hour of his official and personal extremity, his own hired lawyers it is said, are abandoning him to his fate. He will be lucky if his political career does not faithfully resemble, to its end, that Western highway which, at first wide and well-beaten, narrowed then to a cart-track, soon became a mule-path, diminished to a squirrel-track, and then *ran up a tree!*

LETTER FROM HARRISBURG.

Finances of the State—Carrying Over Large Balances—Misstatements Corrected—The Pending Legislation—The Contested Election Case—Gigantic Frauds Exposed.

(Special Correspondence of the Pittsburgh Gazette.
HARRISBURG, March 25, 1868.

Several statements, evidently having their origin here, have been set afloat, representing the financial condition of the State as desperate, and hinting broadly at an exhausted exchequer. It was even proposed, in the interest of those who got up this clamor, to induce the Legislature to authorize a temporary loan.

The source of all this anxiety about the State finances is to be found in the eagerness of interested parties to keep the balance of the money on deposit throughout the State, to the credit of its Treasurer at the permanent figure of two millions, or thereabouts.

There are those, however, who think this State can get along in money matters with a working balance in its treasury of considerably less than two millions. I confess to a slight leaning that way myself.

In the first place it is given out that the new Pension Law will take $400,000 out of the Treasury, and that the Appropriation bill appropriates that amount. It so happens, however, that the sum set apart for this purpose in the appropriation bill, is only $20,000. A slight difference. The Auditor General, it is true, had said that the *old* Pension law, if re-enacted, would take $400,000 out of the Treasury; but the old law was *not* re-enacted; and the new law is so carefully guarded that the claim-agents growl that it will shut them out from the Treasury altogether.

In the second place it is assumed that the tax on net earnings or incomes has been or will be repealed, and that its repeal will cut off $400,000 from our yearly revenue. I wish it were, indeed, true that this unjust tax was likely to be repealed; but it has not been, and, from present appearance, it is not likely to be. If, however, it were repealed, inasmuch as it yielded only $240,000 last year, the calculation of $400,000 loss from this source must be reduced $160,000.

In the third place it is assumed that the tax on personal estate will be repealed, and that this will cut off $350,000 more from our annual receipts. This, too, is a bold assumption. No bill for that purpose has passed, and none of those pending propose to repeal the tax for the current year. At the utmost it can but take effect on the next fiscal year, and the next appropriation bill, not the present one, will have to look that fact in the face.

If, therefore, the tax on net earnings be repealed, (which I do not think probable,) the errors in these magnified reports of threatened deficiencies, are $380,000 in pensions, $160,000 over-estimated in receipts from net earnings, and $350,000 receipts from personal tax, which no one proposes to repeal for the current year. Total, $890,000; to which add $240,000, revenue from net earnings, which are almost certain to be realized, and you have $1,130,009 of a mistake in the estimates of the croakers.

The *deficit* for the current year figured out by these financial Cassandras is $384,000. But, as I have shown, their estimated revenue and expenses are $1,130,000 beyond the mark; and if from this you deduct their $384,000, you find that the Treasury will still have, at the end of the fiscal year, the balance of $746,000.

The estimates of appropriations, however, upon which this deficit is figured out, is based upon the Appropriation bill as it passed the House to which it was supposed the Senate would add $100,000. The Senate has, however, reduced the School Appropriation $100,000, (from $600,000 to $500,000), and the total of the bill is very little larger than when it passed the House. It is very certain, also, that the revenues of the State from its tax on National Bank stock, if properly adjusted, will exceed that of last year, and that the revenues from other sources are constantly and steadily increasing. By any fair and un prejudiced estimate, the balance in the Treasury, on the 1st of next December cannot be brought below $1,000,000.

The tax on personal estate is not likely to be repealed, in my opinion, except upon mortgages and monies at interest, and this only from the beginning of the next fiscal year. If the tax on net earnings is disturbed at all, (as it most undoubtedly should be,) it will not take effect during the current year.

A bill has been reported which, if passed, will reduce the amount applicable to the yearly extinguishment of the State debt to about one million a year, and add the balance, say $750,000 to the ordinary revenues of the State. It has been ascertained that the Legislature is not forbidden by the Constitution from doing this, as was thought last winter, on a cursory examination of the subject; and as we are progressing rapidly enough in paying off a million of debt every year, the State can thus without any decreasing volume of its ordinary revenues, afford to give up the personal and net earnings taxes. If this object is attained, all fears of a deficit in the treasury may be abandoned, even if unpopular and unjust taxation should be given up.

The Legislature will not probably adjourn before the 10th or the 15th prox.

The contested election case in the Senate drags its slow length along, but is, fortunately, drawing near its close. The argument is set down for Thursday, and will probably be concluded then. The chief witness on the stand, to-day, was a Catholic priest from Clearfield, who testified that he gave five hundred dollars to the chief witness for the contestant, through whom the naturalization frauds were unearthed, to go out of the United States and *stay* out until the investigation was over; that he got the money from a man named Gorman or O'Gorman; and that he had had some correspondence with Mr. Wallace looking to or contemplating the expatriation of this witness. I believe, as the result proved, this chief witness *did* go out of the United States and took his five hundred dollars with him; but somehow he found his way back again, and the five hundred dollars was not only lost to those who contributed it, but the moral effect of his evidence was enhanced by their anxiety to get rid of it.

The testimony in this case will, when published, constitute a most efficient campaign political document. ALLEGHENY.

Bank Robbery at Scituate.

PROVIDENCE, March 25.—The following are the porticulars of the Scituate (Mass.,) bank robbery. Between two and three o'clock this morning, the house of the cashier of the Scituate National Bank was entered by four men. He said his wife and son, the latter twelve years of age, were awakened and bound and gagged. The scoundrels had pistols and dirks, and threatened to kill the parties if any resistance was offered. They took the keys of the bank and proceeded to it, leaving one of their number, with a loaded pistol, in charge of the cashier and family. The bank is situated some sixty rods from the dwelling of the cashier. Failing to get into the vault, they returned to the house, and having placed a rope around the neck of the cashier, led him in his night clothes to the bank, and forced him to unlock the vault. They swept the entire contents of the vault into a carpet bag. The plunder amounts to $25,000 value in specie, bills and United States bonds, with a thousand dollars of the old State Bank bills, which had been redeemed by the National Bank. They then returned the cashier to the house, and after waiting a while to see that all was secure, they left for this city, to leave for Boston, as is supposed, on the four o'clock steamboat train. The cashier, after an hour's labor, succeeded in relieving one of his hands from the manacles, and gave the alarm. The messenger reached this city about five o'clock, but the thieves had left.—*Philadelphia Bulletin.*

IT IS AMAZING

That the feeble should totter, with uncertain steps, over the face of the earth, in danger every day of falling victims to the morbid influences by which we are all surrounded, when a tested and proven vegetable tonic, capable of endowing them with the vigor they need, is procurable in every city, town and settlement. It might reasonably be thought that after the twelve years' experience which the world has had of HOSTETTER'S BITTERS, ALL would know that its effect is to prevent disease.

At this season the atmosphere is surcharged with the seeds of intermittents, remittents, rheumatism, pulmonary disorders, bilious complaints and the like. Persons whose nervous systems are relaxed are the first to succumb to these distempers. Brace up the physical energies then with this potential vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest disciple of the old medical dogma will at least admit that a tonic and alterative, compounded of approved herbs, roots and barks can do no harm, while the testimony of thousands invites a trial of its virtues. Vigor is the thing most needed in these cases, as well as in dyspepsia and nervous affections, and HOSTETTER'S BITTERS is the safest, surest and most wholesome strengthening preparation that human skill has yet concocted.

Hundreds of physicians have abandoned all the officinal receipts and prescribed this harmless tonic as a preventive and cure for all cases of Chills and Fever.

ANOTHER CURE OF DEAFNESS.

I lost my hearing during the last year. Part of the time I was totally deaf. In April of this year I was induced, from an advertisement, to make application to DR. KEYSER, 120 Penn street, Pittsburgh. After having tried various medicines from doctors, without any benefit, I have been under Dr. Keyser's treatment now for nearly two months, and am entirely restored to my hearing, so that I can hear a pin drop. JOHN SCANLAN,

ANOTHER CURE.

A man called to-day at Dr. Keyser's office to inform him of a great cure made by his LUNG CURE, or PULMONARY RESTORATIVE. Ilst these cures are made with the Doctor's preparations, he desires it to be distinctly understood that most of his great cures are made in accordance with the established laws that govern the science of medicine, in which he has been engaged for the past twenty-five years. Last week he was also in receipt of a letter from a clergyman in the State of Ohio, detailing another most wonderful cure.

BOSTON has two new hotels built out of the profits of cheap literature, the St. James and the Waverley. The latter indeed is just over the river in Charlestown, but it is close to the back door of the business portion of Boston. Mr. Dow, who built the Waverley, is the conductor of a magazine of the same name of extremely cheap writing, for the million and by the million. At one time, after securing a large circulation, Mr. Dow procured an editor and undertook to sift his wares and elevate his magazine. The result was fatal to his circulation. Discharging his editor, and resuming his old practice of printing about everything sent him, fortune smiled again. All the small writers in the country are ardent friends of the *Waverley Magazine*, and all *their* friends take it. Hence the hotel. The palatial St. James, with its front of two hundred and fifty feet, which would have been the width of a whole block if the site could have been bought, is built by Ballou, out of the profits of the *Dollar Monthly* and other cheap publications.

THE NEW YORK PAPERS say it is a curious fact that, in that city, the demand for children for adoption is in advance of the supply. The number of foundlings received by the police was one hundred and seventy-six in 1867, and this is an increase on the previous year; yet the authorities of various New York benevolent associations assert that they are unable to meet the demand for healthy infants for adoption. The number of persons in New York without children of their own, who wish to have a child to bring up, is large and increasing. Girls are preferred to boys, and even crippled children are not refused.

—At a large meeting of the seamen of the port of New York, held on the 19th inst, resolutions were adopted demanding the following rates after April 1st: To the ports of Northern and Western Europe, $35 per month and $35 in advance; to Western Africa or the east coast of South America, $30 per month and $30 in advance; the same to the West Indies; east of the Cape of Good Hope, or to any port on the Pacific, $25 per month and $50 in advance; to any of the Atlantic ports or British America $30, and $30 in advance; to any port along the Atlantic coast $30 per month and $15 in advance.

Lightning Rods

Munson's Copper Tubular Lightning Rod.

WITH

SPIRAL FLANGES,

Has been erected on thousands of buildings in all parts of the United States, and in a test of ten years no instance of their inefficiency has occurred. This Rod has received the First Premiums at the Fairs of nearly all the States, and ever place it was ever exhibited. It has been endorsed by over five hundred Professors in Colleges, and other scientific men, as the best Rod ever invented, possessing all the elements necessary to protect buildings from lightning. It is made of copper, because this is the best metallic conductor, except silver, and does not rust. Its spiral flanges and rough edges dissipate electricity and double its conducting power. Electricity uses only the surface, never the heart of a metal. One flange of this Rod being open, the inside surface is available as well as the outside; altogether, its power surpasses twenty common iron rods or a solid copper rod an inch and a half thick, and has the additional advantage that it is continuous, and can never become disjointed or otherwise get out of order, but will endure as long as the building stands on which it is erected. Our points are made on the most approved method, and our Insulators are unsurpassed.

No holes are made in slate or tin roofs.

Our customers will have the benefit of our new Insulator, patented in 1867. The price is thirty cents per foot, and three dollars for each top; this includes the cost of putting the rod on buildings—there are no extra charges of any kind. Within the past few years we have erected this rod on many churches and other public edifices in Pittsburgh and vicinity, and upon thousands of dwellings and barns. For the superior character of this rod we are permitted to refer to Rev. I. C. Pershing, D. D., President Pittsburgh Female College; Philotus Dean, Esq., Professor Natural Sciences, Pittsburgh High School; Geo. Woods, D. D., Pres't. Western University of Pennsylvania.

Thankful for the liberal yrders of past years, we solicit a contidnation of public patronage.

STATE OF NEW JERSEY, } ss.
County of Essex. }

We, Lewis C. Grover, President, and Edward A. Strong, Secretary, of "The Mutual Benefit Life Insurance Company," of Newark, New Jersey, being duly sworn on our oaths, declare that the actual cash value of the assets of said Company, as near as possible, allowing sixty days to convert the same into ready money, is the sum of at least thirteen million six hundred and eighty-seven thousand four hundred and sixty-seven dollars and forty-seven cents.

LEWIS C. GROVER, President.
EDWARD A. STRONG, Secretary.

Subscribed and sworn to before me, at Newark, N. J., this 31st day of January, A. D. **1868.**

LEWIS C. GROVER, Jr.,
Notary Public, New Jersey.

A Dividend of Return Premiums of Fifty (**50**) per cent. has been declared on the Life Policies issued prior to January **1, 1867**, applicable to the premiums paid in **1866**; on ordinary Endowment Policies of the same year Forty (**40**) per cent.; and on Non-forfeiting Endowments Thirty-three and one-third (**33⅓**) per cent.

The Directors have also ordered the payment of the Twentieth and Twenty-first Dividends, (those declared in **1866** and **1867**,) being fifty per cent. each, (making **One Hundred Per Cent.**) to the members entitled to the same, as their premiums become due during the year **1868**; those holding Scrip to be allowed the same as CASH in payment of Premiums, and where there is a loan the whole amount to be credited thereon.

LEWIS C. GROVER, President.

BENJ. C. MILLER, Vice President.
EDWARD A. STRONG, Secretary.

WANTED.—AGENTS FOR THE OFFICIAL HISTORY OF THE WAR: Its Causes, Character, Conduct and Results. By **HON. ALEXANDER H. STEPHENS.** A Book for all sections and parties.

This great work presents the only complete and impartial analysis of the Causes of the War yet published, and gives those interior lights and shadows of the great conflict only known to those high officers who watched the flood-tide of revolution from its fountain springs, and which were so accessible to Mr. Stephens from his position as second officer of the Confederacy.

The intense desire every where manifested to obtain this work, combined with an increased commission, makes it the best subscription book ever published.

One Agent in Easton, Pa., reports **72** subscribers in three days.

Another in Boston reports **103** subscribers in four days.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, March 26, 1868.

The gold market is unusually quiet, with but ¼ per cent. of fluctuations; opening at 138¾, and varying between that and 138¼. Government bonds were dull and lower early in the day, but at noon quotations had slightly improved, with a very light demand. Opinions are very much divided on the course of the Government securities; the general impression is that the market will be lower on account of the scarcity of money, but if business remains dull and unprofitable, government securities will be bought up, even at higher rates.

The stock market had somewhat improved in quotations, but the amount of business is very light, and unless the Government adopts such regulations, preventing the Assistant Treasurers from locking up money, little reliance can be placed on an early advance in the market.

Money is scarce, and still commands from 10 to 12 per cent. on first-class paper; long paper is not wanted at any price.

—It is highly probable that a return to a state of financial ease shall be effected before the opening of inland navigation, and the commencement of seasonable trade beyond the seaboard and the West. The time is now near at hand when the annual Eastern movement of produce will set in. The receipts, both by land and water, will probably be large during the month of April, requiring large amounts of ready capital for their handling and transfer; and, should our moneyed institutions, with a continued poverty of resources, be unable to respond to the call that is sure to be made upon them, the consequences must be disastrous both to the commercial and producing interests. Fortunately, no emergency of that kind is now anticipated, though it may be well to look ahead and be prepared for coming events.

—The prospective repeal of the manufacturing tax is just now exerting a favorable influence upon the market for wool, cotton, hemp, metals, leather, hides, and other raw materials, stimulating consumers to lay in stocks, and causing them more readily to pay the market prices. But, on the other hand, buyers of manufactured products are operating more cautiously and sparingly, in the hope that the lifting of this burthen of taxation, which is borne chiefly by the consumer, will enable them by-and-by, to supply themselves at a reduced cost.

—Money is active in Boston at 6 per cent. for call loans upon Governments, and 6¼ to 7½ for discounts of short paper. The supply of good business paper is in excess of the demand, and money upon call is not overabundant at the rate named. The bank loans are very high—perhaps fully as high as can be safely carried over the coming return day. New York funds are scarce, but do not command any premium this week. Small bills are in demand and pay rolls with difficulty supplied with the requisite small notes.

CENTRAL LIVE-STOCK MARKET.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, March 26, 1868.

CATTLE.

There was next to nothing done at these yards during the past week, the sales being very insignificant—hardly worth reporting. During the fall and in the early part of the winter, it was nothing unusual to have sales of from two to four thousand head of Cattle per week—now the sales do not reach that many hundreds; and, what is worse still, there is but little prospect at present of any immediate improvement. The yards present a very dull appearance, nearly all the pens being empty, and while there are but very few buyers, it is equally true that Cattle are almost as scarce as purchasers, and this, probably, tends very much towards keeping buyers away, as they do not care about coming here from Philadelphia, New York, and other points when the chances are that they will find nothing to buy when they get here. The sales reported were as follows:

Smith & Talmage sold two prime steers, weighing 2600, at 7½.

Hedges & Taylor sold 30 head of mixed stock—mostly common—for McKeen to Voorhees at from 5¾ to 7½; also, 25 head of very common for Berry to Marshall at 5½.

Messenger, Gillett & Co. sold for W. A. Gillett 30 head, weighing 40,675, at 8½.

F. M. Swing sold 70 head good Illinois steers, averaging 1140, at 8,30. Bought by P. Klemen, who afterwards sold 14 head of "tail ends" to Eckert, a Johnstown butcher, at 7,90.

Steel sold 10 head of good steers to Marks & Traurman at 8,30.

SHEEP.

The Sheep market has been fairly active during the past week, though to-day, under the influence of increased arrivals, the feeling was a little weak, yet, prices underwent no perceptible change, ranging from 4½ to 7½ for common to strictly prime fat mutton Sheep. We are cognizant, however, of 8½ having been offered, and refused for a very fine drove of Kentucky Sheep, the owner asking 9. These, however, were an extra lot of Sheep, and the prices mentioned in connection therewith do not indicate the true condition of the market, as it is not once in a year, probably, that a drove of this kind is offered at this place.

Smith & Talmage sold 189 head for Erwin to Fritz & Co. at 6,75; 185 same to Loyd at 5¾; 76 for Medill to Voorhees at 7¼—averaging 90 lbs; 160 for Erwin to Kase at 6¾; 111 for Brainard to Loyd at 4,80; 474 for Hostkinson to Kase at 7,35; 190 for Brainard to Voorhees at 7¼.

Glass, Lafferty & Co. sold 570 head for Doud to Voorhees at 7½; 569 for same to Hesser at 7; 369 for same to same at 6,20; 54 for Zimmerman to Voorhees at 6¼.

Hedges & Taylor sold 175 head for Jordon to Loyd at 5,50.

Voorhees bought 140 from Martin at 6,37; 146 from Newton & Neff at 7¼; 326 from same sellers at 6½; 202 from McClain at 6¾; 152 from Carnes at 5,30; 337 from Hawk at 6½; 95 from Aull & Myers at 7.

Holcomb & Hill bought 1 car load from E. Neff at 8,30; 139 from Newton & Neff at 8¼; 142 from same at 8¼.

Pidcock & Co. bought 179 from Bowman at 6¾.

E. L. Kase bought 374 head of Washington county sheep, averaeing 96 lbs, from Cook & Paxton at 7,85; 180 from Carnes, averagihg 87, at 7; 206 head of Washington county sheep from Quail, averaging 90 lbs, at 7; 176 from Hasson, averaging 88 lbs, at 6,80.

M. Johnston sold 191 head to Hesser, averaging 78, at 5,65; 36 head to same buyer, averaging 94, at 6.

Loyd bought 111 from Smith & Talmage, averaging 70 lbs, at 4,80; 95 from Kase, averaging 90, at 7,35; 97 from Ruff, averaging 84, at 6¾; 89 from C. Snyder, averaging 80 lbs, at 5¾; 352 from McKee, averaging 80 lbs, at 5,80.

HOGS.

The Hog market has been fairly active during the past week, and with a continued good demand and light receipts, prices are firm and well sustained, ranging from 8½c to 10¼c, for light to prime heavy averages. The following is a pretty full report of all the leading sales.

Singer & Imhoff bought 180 head from Dock & Orr at 9¾; 106 from Glass & Lafferty at 9¾; 95 from E. Smith at 9,80; 92 from same at 9¾. Shipped 581 head of Chicago Hogs, costing there from 9 to 9¼.

Crouse, Emerick & Co. bought 181 head from Hedges & Taylor at 8,10; 138 from G. Clark at 8¼; 55 from Moss & Loughrey at 9,60.

Glass, Lafferty & Co. sold 150 head for Doud to Voorhees at 8½; 165 for Holmes & Pfieffer to same buyer at 8,60; 106 for C. Pfieffer to Singer & Imhoff at 9¾; 139 for same to Messenger, Gillett & Co. at 9; 51 for E. Smith at 8¼; 148 for Doud to Pidcock at 8,60; 123 for Friend to E. Smith at 8,90; 55 for Berry to same buyer at 8¾; 144 for Zimmerman to E, Smith at 8¼.

Gilchreist & Co. bought 194 head from W. Hedges at 10,10; 104 from W. M. Tilden at 10; 104 from same at 10,32½. Shipped two car loads of Chicago Hogs.

Hedges & Taylor sold 57 head for Roenbaugh to E. Smith at 8; 159 for Johnston & Gregg to same buyer at 8¼; 74 for Armstrong to same at 8¼; 204 for McWhinney to same buyer at 8½; 178 for Pruden to same at 8,15; 95 for Berryhill to Voorhees at 8¼; 71 for Keiser & Luker to same buyer at 8¼; 155 for Sharp to E. Smith at 8,35; 115 for Fuller to Pidcock & Co. at 8,30; 149 for Phillips to E. Smith at 8,55.

E. Smith bought 59 head from Knowles at 8,50, 17 from C. H. Myers at 8¾; 153 from A. Meeks at 8¼; 159 from S. Johnston at 8¼; 78 from Beals at 8¾; 24 from R. Barnes at 8; 149 from A. Meeks at 8,55.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBUGH GAZETTE, THURSDAY, March 26, 1868.

There are no new characteristics in the general markets worthy of special notice. We can report a steady local demand for most of the leading commodities, and while there is a fair volume of business in the aggregate, there are no important changes in prices.

BUTTER—Continues very scarce, and with a steady demand, prices are well sustained, ranging from 50c to 55c for prime to choice Roll.

EGGS—Steady but unchanged; regular sales at 26@27c.

GRAIN—Winter Wheat is still quoted at $2,50 to $2,53 for Red, and 5c to 8c higher for White, according to quality—Sale of 150 bush prime Penna. Red at $2,56. Oats firm but unchanged; one car reported at 72½c; small sales in store at 73c to 75c. Rye cannot fairly be quoted above $1,80 to $1,85; sale of 500 bushels in elevator, at $1,80—buyer paying all elevator charges. Barley is still quoted at $2,15 to $2,25. Prime Ear Corn may be quoted at 98c to $1 on track and wharf. But little inquiry for Shelled.

SEEDS—There is some little inquiry for Cloverseed, and we can report small sales at $8. Timothy is quiet at $2,75. Flaxseed is scarce and in demand at $2,50.

HAY—Loose Hay is selling from country wagons at $18 to $26, as to quality. Baled is selling on wharf at $20 to $22.

PROVISIONS—Bacon is firm and in good demand but unchanged; we quote at 12c for Shoulders; 13¾ to 15¼c for Ribbed and Clear Sides; 16¾c for Breakfast Bacon, and 17¾c for Sugar Cured Hams. Prime kettle Lard, 16¼c, in tierces, and 17c in kegs. Mess Pork, $25,50.

DRIED FRUIT—Is hardly so firm since it has been discovered that the damage by the hard weather some two or three weeks since is not near so serious as at first supposed. Peaches are still quoted at 10½c to 11½c, and Apples at 7c to 8c.

LARD OIL—Is firm and higher; we now quote No. 2 at $1,10, and No. 1 at $1,35.

POTATOES—In steady demand but unchanged; regular sales in store at $1,05 to $1,10 per bushel, and $3 to $3,25 per barrel, as to quality.

GREEN APPLES—Quiet but unchanged; regular sales in store at $4 to $6 per bbl, as to quality.

FLOUR—Is quiet and unchanged; we quote Spring Wheat at $10,50 to $11,00; Winter Wheat at $12 to $12,50, and fancy brands at $14 to $15. Rye Flour is firm at $8,25.

BEANS—Scarce and firm, with small in store at $4,50 to $5,00 per bush.

HOMINY—Sales in a regular way at $6,25 to $6,50 per bbl.

ONIONS—Sales at $4,50 per bushel.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, March 26.—The Dry Goods market for printed calicoes continues active and excited among leading jobbers but the supply is becoming exhausted of goods which had been reduced in price and the tendency is towards reaction and in sympathy with the advance in cotton. Garner & Co.'s prints at least will be advanced ¼c per yard to-morrow. We now quote these prints: 8½c for Wamsutta, 10c for Lowell; 11½c for Amoskeag; 12@12½c for Merrimack D; 13c for do W; 15c for Cambries; 12c for Spragues, 11½ for Lancaster, and 14 for Cocheco. Cotton goods market quite irregular. Heavy Sheetings, like Indian Head, job at 18. White Lyman E sell down to 16½; Pacific extra 16½; Augusta 17, and Bedford R held at 10½. White New Market A sell as low as 12½. Mill agents are astonished at the decline in Prints, and several have withdrawn their goods from sale for the present. Print Cloths nominal at 8¾a9.

The Pittsburgh Gazette.

New Method of Treating the Insane.

Dr. Charles A. Lee, of Peekskill, New York, recently read an interesting paper before the Social Science Association of this city, upon the "Care of the Chronic Insane." This paper contained several new and valuable suggestions with regard to the treatment of the different kinds of insanity, that is, insanity produced by different causes.

Dr. Lee is convinced, from personal observation and experience, both in this country and Europe, that the policy of providing for all classes of insane in one uniform manner and in the same building ought to give place to the more rational one of segregation—a plan embodying special provision for each general class; that inebriates, epileptics, acute and chronic cases, demand accommodations varying according to the different general treatment indicated in each; and that the attempt to solve this problem by divisions of classes by wards have only been partially successful.

He urges that these classes, namely, the inebriate, the epileptic, the acute insane, and the chronic insane, should be entirely separated from each other; and that each class should be placed under the exclusive management and control of a competent superintendent or single administrative head, as more likely to promote the individual interests of the respective classes than the present plan of aggregating them in a single establishment.

Dr. Lee instances the successful adoption of this plan of segregation in the case of the "asylum and cottage" system pursued in the Fitz James Asylum at Clermont, France, and also mentions that a similar plan, so far as relates to chronic insanity, has been recently adopted in Massachusetts and in Toronto, Canada. Steps in the same direction are making in this State by the establishment of an Asylum on Seneca Lake for the chronic insane only; one for inebriates at Binghamton, and one in this city for the especial treatment of epileptics.

The doctor thinks that wide departures from the the established styles of hospital architecture might be practicable and expedient for the different classes of patients, varying from substantial boarding houses for inebriates, through the present modernized hospital structures for the acute epileptic insane, to farm cottages for the chronic and incurable.

Finally, Dr. Lee very forcibly and justly discusses the correctness of the principle which guides the present practice with regard to the insane, namely: that the mere fact of insanity justifies and demands the committal of the insane patient to the walls of a lunatic asylum; and whether it is ever proper to deprive anyone, sane or insane of his liberty, unless for his own protection or the the protection of society.

He says, with truth, that while it may be proper to confine patients in hospitals for the purpose of curing them when curable; or to protect the public and themselves from the effects of their violence; yet there is a very large number of chronic and incurable cases now confined in our asylums, who would be far healthier and happier if they were at large, or at least allowed comparative freedom from restraint, and given some light employment under proper supervision.

The concluding paragraphs of Dr. Lee's paper we copy *verbatim*, as they contain a just and strong reproof of the present system of hospital treatmens in cases of insanity.

"This treatment," says the doctor, "is declared to be both moral and medical. Now, moral treatment consists in bringing the insane mind in frequent contact with the sane mind; but what opportunity is there for this in institutions where the whole medical force consists of a superintendent who rarely enters the wards, and a few assistants who take their daily rounds among several hundred patients? The very idea of moral treatment seems absurd under such circumstances, nor is there a much better chance for medical treatment. To be reasonably successful it requires a close and careful investigation of the physical and pathological condition of each individual patient, and this often repeated. How, again, is this possible where the numbers are so great and the attending physiciant so few?"—*N. Y. Post.*

A Picture of Grant.

On Thursday night I saw Grant and his wife at the Theatre, laughing at John Owens. They are always good and modest people. Mrs. Grant has never given indications of other than a wifely and womanly nature. She has a good face, and is beloved. Grant is far from a fine looking man. He wore at the theatre a dull black hat, and a rough overcoat—his whole dress civilian—and he therefore lost the adventitious aid of buttons and gilt which, while they do not dignify man, scarcely detract from him. That must be a good instinct in woman which goes for buttons and a side sword. The General's face is a study to me always, wearing its look of pain, as if an invisible world pressed him down from above. He always walks as if steadying himself under this load. You can feel his headache. Wonderful patience seems to be forever just stifling his cry of pain. As to his reticence, so much spoken of, that is only true of things about which you have no business to ask. He will talk with you freely upon Mexico, a theme of constant enthusiasm to him as to Sheridan, his great Lieutenant. Both of them have the Pacific coast passion for conquests in that land, already hallowed with the body of Cortez, and the blood of Maximilian, and scared in the history of the American army. General Grant will talk by the hour upon the resources of Mexico, the beauty of its climate, its capacity for defence and the strategic routes to its strong positions. He thinks of it as of a dream of young soldierhood, that, if he could retrace life, might open up to him a personal career among the individual captains. We are, alas, never satisfied with what we have. Grant is modest, plain, and safe, and our souls upbraid him because he has not the audacity of Bonaparte or the fuss and inches of Winfield Scott. The one man made a usurper, the other gave us his matured advice: "Wayward sisters of the South, depart in peace!" But this man came from the ranks as promptly as Napoleon. His campaigns covered more territory. His victories were as decisive. When he opened the Mississippi, who shut it again? When he conquered Tennessee, who retook it? When he fastened upon Petersburg, who drove him away? He had not the meanness of Napoleon, who filched all the credit of his subordinates; for Grant praised every worthy associate, Invidious criticism and partisanship will in vain seek to demean Grant by exalting his marshals. Sheridan told me the night of the victory of Five Forks—perhaps the most brilliant episode of the war—that General Grant had outlined the battle. If, there is any safety in making Presidents of soldiers, Grant is the safest of all soldiers, a simple Republican, who never dreamed an attempt upon the liberties of the people, a Messena and a Moreau together. President or not, this great landscape of the new world is only a pocket map of his victories. Causes and wherefores are played out; *he won!*—*G. A. Townsend.*

A Fatal Spree Among Officers.

The Lawrence (Kansas) *Republican* publishes the following communication:

In the winter of 1864 I was stationed at Vicksburg, Miss. While there the officers were idle, and drank, as usual, a great deal of bad liquor. One night, when on one of our protracted sprees, in a hall on Washington street, Captain Jessup and Captain Sholes thought they would play "William Tell." Sholes measured off ten paces, planting himself against the wall telling Jessup to shoot at a tin cup which he placed upon his head. Jessup was known as the best pistol shot in the regiment, but remonstrated a little against running such a great risk of his life, but was prevailed upon by Sholes to try his skill. He fired, and just as he pulled trigger, Sholes raised him up a little and the ball penetrated his forehead, killing him instantly. I knew Jessup for more than a year afterward. He was almost a raving maniac, to think he had killed his best friend all for nothing else than having too much whisky aboard.

The Last Case on Record Proving that "Murder will Out."

A letter has been received by Judge G. W. Johnson, of Louisville, from a party in New Orleans, developing a cold-blooded murder committed in the first named city, about five years ago. The writer states that his conscience will no longer permit him to keep the bloody secret, and he is willing to go to Louisville if the affair is investigated, and testify against the guilty parties. The victim was a soldier, who had $500 on his person, which instigated the parties to murder him. He was inveigled into an asignation house kept by an old negro woman, where he was quickly dispatched and his body thrown into a privy vault in the rear of the premises. The informant points out the exact locality, and requests Judge Johnson to lay the matter before the authorities and cause them to have the remains disinterred, when he will go to Louisville at once, and divulge all the facts in the case, and point out the guilty parties. This mysterious affair is to be investigated.

—A new well is being tested on the Irwin Farm, on Upper Cherry Tree Run, about one and one-half miles west of Miller Farm, and four miles south of Titusville. The third sand rock is coarse, and about fifty feet thick. The well is owned by the Petroleum Mining Company of Philadelphia.

SPECIAL NOTICES.

BUCHU.

(From Dispensatory of the United States.)

DIOSMA CRENATA. BUCHU LEAVES.

Properties.—Their odor is strong, diffusive and somewhat aromatic, their tastes bitterish, and analagous to mint.

Medical Properties and Uses.—Buchu Leaves are gently stimulant, with a peculiar tendency to the *Urinary Organs*, producing diuresis, and like other similar medicines, exciting diaphoresis.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostate and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be adpiied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, facteries, ships, steamboats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

ORDINANCES.

ALLEGHENY.

ORDINANCE GRANTING THE RIGHT OF WAY TO THE FEDERAL ST. AND PLEASANT VALLEY PASSENGER RAILWAY.

SEC. 1. *Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby enacted by the authority of the same,* That the consent of the Councils of the City of Allegheny is hereby given to the "Federal Street and Pleasant Valley Passenger Railway Company" to lay out and construct a railway, and for that purpose to enter upon and occupy the following streets, viz: Starting at the centre of the Diamond; thence along Federal street to North avenue; thence along North avenue to Monterey street; thence along Monterey street to Jackson street; thence along Jackson to Fremont street; thence along Fremont street to Washington avenue; thence along Washington avenue to Taggart street; thence along Taggart street to Hilldale Cemetery. The same to be constructed with single or double track, with turnouts and sidings, and to traverse said streets with their horses and cars, subject to regulations and restrictions hereinafter mentioned and described, provided the tracks along North avenue be laid on the south side of said avenue, and no sidings be allowed on said avenue.

SEC. 2. Said Councils shall have the right, from time to time, by ordinance, to establish such regulations in regard to said railway as may be required for the paving or repaving, grading or culverting and laying of pipes along said streets, and to prevent obstructions thereon.

SEC. 3. That said railway, in constructing their road, shall conform to the grades now established, or hereafter to be established, of the said streets, and to keep in perpetual repair, for the period of five years, that portion of said streets lying between the rails of their track or tracks, and one foot beyond the outside of rails; said term of five years to begin from time of laying the track, and on and after the expiration of said term of five years to keep the said streets in perpetual repair from curb to curb, always subject to direction of City Engineer, with privilege of appeal to Street Committee, whose decision shall be final; and from time of running their cars to keep said streets clean, under direction of Street Commissioner, with right of appeal as before stated.

SEC. 4. That for the first period of five years after said Company shall commence running their cars, they shall not be subject to tax on cars and dividends; for the second period of five years said Company shall pay to the Treasurer of said city twenty dollars per year for each car and three per cent. upon all dividends declared; for the third period of five years thirty dollars per year for each car, and five per cent. upon dividends; and thereafter the sum of forty dollars per year for each car and five per cent. upon dividends, the payment of the sum assessed upon each car to be made one month after beginning of second period of five years, and at the same date annually thereafter; and the said cars shall be numbered; drays and carriages are now numbered, under the ordinances of said city regulating licenses of said veeicles. The President of said Company shall annually, on the first Monday of July in each year, make a written return under oath to the Controller of said city, of the number of cars which may at any time during the year run upon said road, and the books of said Company shall at all times be open to inspection of the Finance Committee or any other Committee appointed for that purpose.

SEC. 5. That said Company stipulate to construct their railway and run cars upon the route mentioned within six months from their acceptance of the provisions of this ordinance.

SEC. 6. That said Company shall use, in the construction of their said railway, rail of a pattern to be approved by the City Engineer and the Committee on Streets, and shall lay down the same to a gauge of five feet two-and-a-half inches; the same to be done under the supervision and direction of the City Engineer, who shall be paid for his services by the Company while employed by them.

SEC. 7. The said Company shall put down, at all gutters crossed by said railway, iron culverts of a pattern to be approved by said said Engineer and Street Committee, and said culverts shall be the entire widths of the streets between the line of property, and the rails shall not be laid until the said culverts shall be put down.

SEC. 8. That this ordinance, and any contract entered into by virtue of it, shall be subject to modification or change any time after the expiration of ten years from time of acceptance hereof by said Company, by the city giving said Company due notice thereof.

SEC. 9. The city reserves the right at any time after the expiration of twenty years from date hereof, by giving the Company one year's notice of such intention, to possess said road and stock by paying for the same at a rate fixed by five disinterested appraisers, to be appointed at the request of said city by the President Judge of the Quarter Sessions Court of Allegheny county.

SEC. 10. This ordinance shall not go into effect, neither be published nor recorded, until said Company shall file in the office of the City Controller an agreement, under the seal of the Company, accepting this ordinance, with all its provisions and conditions, and covenanting that any failure to comply with the terms hereof shall, at the option of said city, work a revocation of the privileges herein granted.

SEC. 11. That nothing in this ordinanae shall be construed to give the said Railway Company the privilege of running any other than passenger cars on said road.

Ordained and enacted into a law this the 19th day of March, A. D. 1868.

JAMES McBRIER,
President of the Select Council.
J. S. SLAGLE,
President of Common council.

STEAM CARPET BEATING ESTABLISHMENT.

Which TEN YEARS' TRIAL in New York and other Eastern cities has proved a complete success.

ITS ADVANTAGES:

1st—Fading and Shrinkage are completely avoided.
2d—No ripping apart necessary.
3d—When freed from dust, moths or their larvae, the Carpet looks nearly as good as new, save the natural fading from wear.
4th—When perfectly clean, a Carpet will wear as long again, a desirable matter as a mere point of economy, to say nothing of looks.

ALLEGHENY COUNCILS

Regular Meeting—The Removal of Toll Gates—Ordinances, Resolutions and Petitions—Reports of Committees.

A stated meeting of Allegheny Councils was held Thursday evening, March 26, 1868.

Select Council.

Members present: Messrs. Brown, Callery, English, Faulkner, Gwinner, Hall, Jahn, Krebs, Motheral, Patterson, J. C., Patterson, A, Phillips, Riddle, Reiter, Smith, A. D., Smith, Wm., Weise, Wettach and President McBrier. Absent: Messrs. Black, Gang, Hartman, Myler and Reed.

The minutes of the previous meeting were read and approved.

The President read a petition from a number of citizens, asking that Mr. Thomas Theophilus be not compelled to remove his sign on Federal street.

Mr. Riddle moved to refer to Police Committee.

Mr. Brown objected and thought it should be referred to Committee on Streets.

Mr. Hall thought Mr. Riddle's motion in order. It is a Police matter he said, and according to the ordinance in force the sign is an obstruction and should be removed under orders of the Police Committee.

Mr. Brown's amendment was lost and the petition referred to Police Committee.

Mr. Alex Patterson presented a petition from R. M. Park, asking the return of $75, 50 overpaid tax. Referred to Finance Committee.

Mr. Motheral in regard to paving of Locust street. Referred to Committee on streets.

Mr. Hall a petition for paving of Franklin street. Referred to Street Committee.

THE TOLL GATE QUESTION.

The President read a communication from Mr. G. R. Riddle, Representative in the Legislature, in reference to the bill now before that body in relation to the removal of the toll gates. He states that the committee has reported the bill affirmatively, but there is considerable opposition to it. Those who opposed it wished an additional section "tacked on" providing that the Court of Common Pleas shall appraise and fix the actual cash value of so much of the turnpikes as are to be released. The same to be paid to the respective companies.

Mr. Riddle moved that Councils instruct our Representatives in the Legislature to refuse to agree to the amendment.

Mr. Hall and Mr. President were also opposed to the amendment.

Mr. Riddle's motion was carried after some remarks by Messrs. Wettach and Smith.

ORDINANCES.

Mr. Riddle, from the Street Committee, presented the following ordinances:

For grading of Allegheny avenue, from Ridge street to Western avenue.

Read three times and passed.

For paving of the same.

Mr. Patterson moved this be laid over until the next meeting, as there were objections to it. Mr. Reiter hoped it would pass at once. Messrs. Hall, Riddle and Black could not see any objection.

After some discussion, the motion to lay over was lost. The ordinance was then adopted by a two-thirds vote.

Mr. Brown asked leave to make a few remarks. He objected to this haste in doing business, of finally passing an ordinance at one session.

STREET PAVING IN DUQUESNE.

Mr. Callery offered the following:

Resolved, That the City Solicitor be instructed to prepare a bill giving the Mayor of Allegheny power to issue bonds to pay for the paving and grading of certain streets in Duquesne, now under contract.

The gentleman explained that it was the intention of the borough councils to issue bonds for the work when it was put under contract. The intention is to have the bonds issued and to assess a tax for the payment of the same on the property abutting on the streets within five years. He also explained further that of the contract five per cent. was to be thrown off for cash, and many persons would take advantage of it, and in his opinion there would not be more than $10,000 to be raised.

Mr. Hall stated that the contracts were made and the bonds issued under a special act of Assembly, and he held that all the city wished was the power of transfer.

The resolution was read three times and passed.

Mr. J. C. Patterson presented a petition from N. V. Hoag, representing that in the assessment for the Canal street sewer he had been charged with more ground than he owns, and asking the same to be rectified. Referred to Street Committee.

Mr. Brown offered a resolution instructing the Committee on the Division of Wards to report to Councils the propriety of a re-division of the Third, Fourth and Seventh wards in connection with Duquesne borough. Adopted.

Mr. Alex. Patterson offered a resolution instructing the Committee on Streets to contract for and put up a flood gate.

Mr. A. D. Smith moved to amend that the Committee report cost of same.

Adopted as amended.

REPORT OF WATER COMMITTEE.

Mr. Brown, from the Water Committee, presented their report, accompanied by a resolution authorizing the Superintendent of the Water Works to lay down a six inch pipe from the point where the basin is tapped on the west side to connect along Basin street with Spring Garden Plank road.

The report was accepted.

On the question of the adoption of the resolution Mr. Wettach stated that it would require about 500 feet.

The resolution was adopted.

The President stated that there appeared to be a difference of opinion in regerd to the time of meeting. It had been fixed to meet twice a month but when the rules were adopted they included one fixing but one meeting a month. It was necessary to settle the matter.

Messrs. Riddle and A. D. Swith spoke in favor of but one meeting, the latter saying that when necessary a special meeting could be called.

Mr. J. C. Patterson held that from past experiences two regular meetings are needed.

Mr. Hall offered a resolution making the time of meeting the second Thursday of each month.

Mr. English moved to amend by making it the second and fourth Thursdays.

The motion, as amended, was adopted.

The President stated, that to allow him to appoint the new members upon the Committees, it would be necessary to suspend the rule fixing the number of the Committees.

Mr. English thought that the President should have power to change the Committees when, in his judgment, it was necessary.

Mr. J. C. Patterson moved that the rule be suspended.

On motion adjourned.

Common Council.

Members present—Messrs. Brown, Blair, Cutler, Comley, Clark, Eyster, Hanna, Hochuly, Kennedy, Kunkle, Lindsay, Megraw, Mayer, McDonald, McNeill, Reed, Saints, Voeghtly, White, Warner, and the President.

Absent—Messrs. Dunham, Fleming, Geyer, Hastings, Ley, Ober, Tate.

The minutes of the previous meeting were read and approved.

Mr. Cutler presented a petition from citizens on Killbuck street, asking for the paving of said street from Craig to Corry street. Referred to Street Committee.

Mr. Voeghty, a petition for gas pipe on Green street. Referred to Gas Committee.

Mr. Blair, a petition from the Columbia Hose, Hook and Ladder Company, asking the city to furnish them with horses. Referred to Committee on Engines.

Mr. Voegtly, a petition for iron gutters on Ohio street at Chestnut. Referred to Street Committee.

Mr. McDonald, a petition for a gas lamp at corner Market alley and Federal street. Referred to Gas Committee.

Mr. Warren, a petition for water pipe on Preble street. Referred to Water Committee.

Mr. Voegtly, a petition for the grading and paving of Green alley. Referred to Street Committee.

Mr. McNeil, a resolution authorizing the laying of water pipe on Young's alley. Referred to the Water Committee, with power to act.

Mr. Cutler, Chairman of the Special Committee, to which was referred the matter of assessments for paving Chestnut street, submitted the following report:

GENTLEMEN:—Your Committee, appointed to consider the question of the assessment for paying Chestnut street, and to furnish certain documents in relation to the paving of said street, would present herewith the ordinance authorizing the work to be done.

The other papers called for we are unable to furnish, as there never was an advertisement inserted in the newspapers to do the work, neither was there a contract entered into with the parties who done it.

The accompanying ordinance was not passed until after the work had been in progress for some time, and in fact the whole business was managed without regard to the usual form of proceeding in such cases.

Under all the circumstances, your Committee believe that the property owners on the street should not be required to pay for the repaving of the same, and we would suggest that the contractors be referred for their pay to the party or parties who ordered the work to be done.

Read and accepted.

Mr. Saints offered a resolution authorizing the Mayor to issue a proclamation for the election of three members of Common Council from the Eighth ward, to fill vacancies.

After considerable discussion the resolution was lost.

S. C. concurred in all the above action.

Councils adjourned.

Accidents by Lightning.

The recent thunder storms passed without doing any serious damage in this vicinity, but near Mansfield, Ohio, a valuable barn was burnt by lightning, and at Toledo much injury was sustained, while in Indiana a lady was killed. We may not expect to pass unscathed, for every summer many accidents occur in Western Pennsylvania. Among the more noticeable, of recent date, we name the burning of the Fairview Oil Works; the carriage house of Col. Miller, at Port Perry; the barns of Thomas Kiddo, in Snowden township; James Hanson, Hickory; William Finney, Elizabeth; a dwelling in McKeesport, &c. Lightning also struck the dwelling house of Mr. De Haven, on Sandusky street, and a dwelling on South Common, Allegheny City, and a bakery in Manchester. Noah and Henry Armstrong were killed in Fayette county; M. Barrickman, near Waynesburg; Mrs. Brooks, of Warren, Ohio, &c. A cathedral was destroyed at Montreal as late as the 4th of November last, and a church in New York was so injured about the same time that it had to be rebuilt. In the United States we have no bureau of statistics to furnish us with such facts, but in France, M. A. Legoyt, Chief of General Statistics, reports that in the last ten years in that country there were nearly 5,000 persons injured by lightning, of whom two thousand were killed. Such casualties in this country are very numerous, much more so than people generally suppose. In this connection, we call attention to the lightning rod manufactured in this city, by Messrs. Lockhart & Co., and which has been adopted for many of our public buildings and by the public generally who have use for such protection. This rod has been in quite general use for about a dozen years and has rendered great satisfaction. It is endorsed by the most competent persons, and is undoubtedly a perfect protection against disaster by lightning. A pamphlet on our table gives the names of several hundred citizens in this vicinity who have it on their buildings. We are personally acquainted with the manufacturers, and take pleasure in saying that no firm in the city has a better reputation for upright dealing. We commend the firm and their manufactures to a discriminating public.

Street Matters, &c.

The Street Committee of the City Councils have prepared a report in relation to matters referred to them.

In reference to the grading and paving of Apple alley, in the Eighth ward, from Marion to Miltenberger street, it is recommended that action be postponed for the present.

The City Engineer has been directed to prepare numbers for houses on Bluff street, in the Eighth ward, beginning at the west end.

A survey has also been directed to be made of Wainwright street, from Smallman to Allegheny street, Lawrenceville.

The Committee will also report ordinances for the grading and paving of Penn street from Taylor to Boundary, Gum street from Webster to Bedford avenue, St. Marys avenue (Lawrenceville) from Butler street to Allegheny river, and for the construction of a board walk in Bloomfield, as petitioned for: also granting the Western Telegraph Company permission to erect four telegreph poles on Bellefontain street, above Butler, Lawrenceville.

In the matter of the straightening of Second street, in the Eighth ward, beyond the Birmingham bridge, the Street Committee is awaiting a survey by the Pittsburgh and Connellsville Railroad Company for the relocation of the road at that point.

A New First Class Retail Dry Goods House.

Our readers up town need not be told that they have in their immediate neighborhood a dry goods house which will compare favorably with any of the more pretentious ones in other parts of the city. We refer to the well managed and carefully conducted house of Mr. F. Soucy, No. 168 Wylie street, which has been recently stocked with a large and judiciously assorted stock of dry goods, comprising all the choice and variety which a lady could desire. It has been selected with unsual good care and judgment by Mr. Soucy who has had long experience in this line of trade, and kuows exactly what suits this market and what will prove serviceable in wear as well as beautiful in appearance. We observed on his shelves and counters very pretty prints of all kinds, stylish delaines, silks and chintzes, white goods, carpets, oil cloths, ribbons, shawls, hoop skirts, laces, furnishing goods, crinolines and everything else peculiar to this line of trade. Mr. Soucy sells very cheap as his expenses are light and he is content with small profits. He is an active business gentleman of strict honesty and honor, and we cheerfully commend him to the patronage of our readers.

Held for Trial.

Jeremiah Stilly, charged on oath of J. D. Risher with arson, an account of whose arrest we published yesterday, had a hearing yesterday morning before Mayor Blackmore, and was held in the sum of five thousand dollars for his appearence at court to answer the charge. The ground upon which the charge is founded is an admission made by Stilly on Monday evening last, while drunk, that he burned Mr. Risher's barn. Stilly is a farmer, resides in Jefferson township, some six or seven miles from Six Mile Ferry, where the fire occurred, and bears an excellent reputation. His friends think he will have no difficulty in acquitting himself of the charge.

Allen Pinkerton, of the Chicago Detective Agency, denies that he has any agents in this city. Are the men here representing themselves as under his direction, frauds?

Fatal Accident—False Alarm.

A most distressing accident occurred in Allegheny yesterday, between three and four o'clock, resulting in the death of Edward Cole, son of Charles Cole, residing at 290 Lacock street, Allegheny. Between three and four o'clock an alarm of fire was sounded from box forty-three, to which the fire department responded, but which proved to be false. The Friendship and Hope Hose carriages were returning to their houses, along Ohio street, at a moderate rate of speed, the Friendship in front and the Hope following several yards in the rear, and at the crossing of Sandusky street, the boy, who was returning from the Fourth Ward School, attempted to cross the street, passing between the carriages. He had reached the centre of the street, when he was struck by the horse attached to the Hope carriage, and knocked down, the wheels passing over his head, killing him instantly. He was carried into Dr. Cooper's office, which is near the corner, but was quite dead when picked up. The body was afterwards removed to the residence of his parents, at No. 290 Lacock street.

The deceased was a bright, intelligent boy, aged about eight years, and was a grandson of R. H. Kerr, Esq.

The alarm of fire, as previously stated, was false, and was occasioned through the inexcusable ignorance of one man and the unpardonable carelessness of another. It appears that the alarm proceeded from box 46, for which Mr. Miller, a saloon keeper, has the key, and was occasioned through his carelessness and the ignorance of Fred. H. Eggers, a druggist on Ohio street. Eggers heard the alarm of fire in this city and disputed with a friend as to what box it proceeded from, and in order to find out went to Miller's, got the key of the alarm box and pulled the slide, thinking by that means to ascertain where the fire was in this city. Eggers was arrested by Mr. Crow, Chief of the Fire Department, and taken before the Mayor, who fined him ten dollars and costs.

Shoplifter Arrested.

Several men entered the clothing store of Mr. J. O'Reiley, on Liberty street, Wednesday evening, to look at some goods. The salesman was busy with another customer, and leaving the new comers to examine the stock, went to another part of the store. Presently he observed one of the party, named Michael Connolly, conceal a pair of pantaloons under his coat. The stolen article was demanded, but the possessor, instead of giving it up, addressed abusive language to the shopkeeper. An officer was called, Connolly was arrested and locked up, and yesterday morning, after a hearing, he was committed for trial.

Spring Opening.

Messrs. H. Oppenheimer & Co., the well known and fashionable merchant tailors, No. 83 Wood street, who have long and deservedly controlled a large share of public patronage, announce an opening of new invoices of the latest patterns of imported cloths, cassimeres, vestings and gents' furnishing goods. The stock is one of the finest ever opened in this market and embraces all the latest styles and novelties which have appeared in the markets of the metropolitan cities. This firm manufacture in the most durable and highest style of art, and their garments are proverbial for neatness and good taste. We refer our readers, needing anything in this line, to these gentlemen.

Fire in the Ninth Ward.

At three o'clock yesterday afternoon a fire occurred in a frame house in "Bedbug Row" on Penn, between Morris and Rush streets, occupied by John Cox and owned by John Logan. The alarm was given from box sixty-three and the fire department responded promptly, but the Niagara and Independence performed all the service requisite. The fire was caused by a defective flue. Mr. Cox is a boot and shoemaker and his loss will not exceed one hundred dollars.

Lawrence Steam Fire Engine Company.

The Committee on City Property, having considered the subject, will at the next meeting of Councils apply for authority to purchase a lot, and to contract for the erection thereon of an engine house for the "Lawrence Steam Fire Engine and Hose Company," in Lawrenceville, as the citizens of that district labor under disadvantage for want of sufficient protection in case of fire. The citizens have already contracted for a hose carriage.

For District Attorney.—The name of W. C. Moreland, Esq., is presented in our advertising columns for the office of District Attorney, subject to the nomination of the Union Republican party. Mr. Moreland is one of the most successful practitioners at our bar, and in criminal business especially has had as large and liberal business as any member of the legal fraternity in Allegheny county. He is a gentleman of decided ability, and should he be nominated and elected, will discharge the duties of that office with marked zeal and credit.

False Pretense.—Abraham Wield, a boarder at the "Home for the Destitute," was arrested yesterday, on a warrant issued by the Mayor, on oath of Matthew McNary, charging him with obtaining beef under false pretense. It is alleged that the accused went to Hugh Richardson, a butcher, who has been furnishing the "Home" with beef, and got two dollars and seventy-five cents worth of the article, stating that it was for the "Home," which he afterwards sold and appropriated the money to his own use. He was locked up for a hearing.

Another Bawdy House Case.—James Hill yesterday made information before Alderman Strain, charging Mary J. Clair with keeping a bawdy house. The accused resides on Centre Avenue, and it is alleged by the prosecutor keeps a low house of illfame, which is frequented by persons of both sexes who conduct themselves in a disorderly manner, to the great annoyance of the residents of that locality. The accused was arrested and held for a hearing.

Stolen.—Wednesday evening, about six o'clock, some sneaking thief entered the office of Dr. Walter Ure, on Ohio street, Allegheny, and carried off a case of surgical instruments, valued at thirty-five dollars. The Docter had just left the office to eat his supper when the theft was committed. The instruments were enclosed in a red morrocco case.

Illegal Liquor Selling.—Willoughby Opp yesterday made information before Alderman McMasters charging his mother-in-law, Lydia Ann Chess, with violating the liquor law by selling liquor on Sunday, and selling without license. The parties reside in West Pittsburgh. The accused was arrested and held for a hearing.

District Attorneyship.—Thus far there has appeared but two candidates for the Republican nomination for the office of District Attorney, Gen. A. L. Pearson and W. C. Moreland, Esq. The friends of both gentlemen are sanguine of success. Either will make an acceptable candidate.

Moving Day.—Next Wednesday will be the first of April, or "all fools day," and in these parts "moving day." Already many families have changed their quarters, but the general uprising of the renting classes will hardly take place before noon of that great "flitting" anniversary.

The very latest spring style of shawls for ladies and children, of neat and elegant quality and finish, and at very reasonable prices will be found in the magnificent new stock of goods just received at Bates & Bell's dry goods store, No. 31 Fifth street.

Killed on the Railroad.

An accident occurred near Torrens Station, Wednesday evening, about seven o'clock, resulting in the death of Abraham Hays, an employe of the Superior Brick Company. Mr. H. had been employed at the works all day, and was retiring to his boarding house when the accident occurred. It appears that the Walls Accommodation trains pass each other at the time and place the accident occurred, and Mr. H. was walking on the track, coming west. Noticing a train going east approaching, he stepped to the other track to allow it to pass, not noticing a train approaching from the west. The engineer observed him, and gave the signal for down brakes, but before the train could be stopped the engine struck and passed over him, killing him instantly. The train was stopped and the body taken on board, and removed to Torrens Station. Coroner Clawson was notified, and summoned a jury, which, after viewing the body, adjourned to meet last night night at the Eastern Exchange Hotel, East Liberty, where the inquest was concluded. A verdict of accidental death was rendered.

The deceased was between twenty-four and twenty-five years of age, was a native Wellsburg, West Virginia, where his mother now resides. He had on the morning previous to his death entered upon his duties as foreman of the brick yards, in place of Mr. Laughran who was killed on Tuesday evening. This is the fourth man connected with the Superior Brick Works killed this week.

District Court—Judge Williams.

In the case of Allegheny City vs. A. Marshall, reported yesterday, the jury returned a verdict as follows: "We find that the city of Allegheny acted in good faith in modifying the original contract of December 1st, 1863, by the new contract of July 30, 1866, and that the price, fifty-six cents per cubic yard, at which the work was re-let under the new contract, was fair and reasonable, in view of the advanced price and the then cost of labor, and therefore we find for the plaintiff the sum of $607.60 with interest from June 27th, 1867, subject to the opinion of the Court on the question of law reserved. We further find the cost of the work, including culvert, with which the defendant is chargeable at thirty-five cents per cubic yard to be $444.49 with interest from June 27th, 1867, and that defendant's proportion of the costs of said culvert is $8.89. Judgment to be entered for $607 or $444.49, or for either of said sums, less cost of culvert, $8.89, with interest as aforesaid, as the Court shall determine the law upon the questions reserved."

Santfield J. Crist vs. P. Ft. W. & C. Railway Company. Action to recover damages for the loss of an arm. On trial.

An Editor Gone.—Bartley T. Campbell, Esq., one of the talented editors of the *Evening Advocate*, has ceased "twilight sparking" for awhile, and taken to himself a wife, choosing one of the fairest daughters of our sister city to love, comfort and cherish throughout life. May the marriage bells ring right merrily the "Campbells are Coming," and may neither he nor his fair wife ever regret the ceremony which attracted so large and fashionable an audience at Christian Chapel last evening. They have our best wishes and most hearty congratulations.

Mr. Editor:—As the time is at hand for nominating candidates, I would respectfully present the name of Colonel John B. Clark, of Allegheny City, for State Senator. The soldiers have *twice* rallied at his call to go to the field; they will again rally around his standard. With Grant and Clark as our leaders, every soldier will answer at roll call. ALLEGHENY.

Assault and Battery.—Mary J. Clair, a resident of Centre avenue, yesterday made information before Alderman Strain, charging David Robinson with assault and battery. She alleges that he struck her with his fist. Robinson was arrested and held for a hearing.

Soldiers Monument.—The Committee on City Property, at next meeting of Councils, will recommend the donation of the lot on the corner of Grant and Liberty streets to the Soldiers' Monumental Association, for the purpose of erecting thereon a monument.

Arm Broken.—Mr. John Snyder, residing in Snyder's Hollow, had an arm broken yesterday. Mr. S. was engaged in rolling logs from a clearing and by some means he was caught between two logs and his arm terribly crushed.

Surety of the Peace.—P. Cuff was arrested on a warrant issued by Alderman Strain yesterday, on oath of Michael Kennedy, for making threats calculated to incite a breach of the peace, and held for a hearing.

Thief Coming.—The New Albany, (Ind.,) *Commercial* notes that a celebrated thief named Drummond purchased a ticket for this city, meaning to "do" the town. The police are on the lookout for him.

Ladies will find a very judicious assortment of choice Table Linens, Crash, Napkins and general housekeeping articles at the first class dry goods house of Bates & Bell, No. 21 Fifth street.

Daylight meetings of the City Council are not so pleasant to members as evening sessions.

An Organ "Galloping" into Favor.

A most remarkable piece of musical mechanism, in the shape of an organ, representing the *vox humana* (human voice,) is creeping, or rather galloping, into public favor. It is known as the "Burdett Organ," whose tones, no not tones merely or abstractly considered as such, but whose utterances are made to excite almost any emotion of the human heart, whether of joy or sorrow, at the will of the performer, and cause the listener to wonder how it lives without eating or drinking like human beings. Those enterprising gentlemen, H. Kleber & Bro., 122 Wood street, Pittsburgh, have it for sale and would be pleased to exhibit to those who desire to witness its powers, the wonderful capacity it possesses to inspire our minds, stir our hearts, and mingle its tender and touching sympathies with those of the human breast. It is said that one gentleman on visiting this amazing specimen of human invention, for the second time, so far forgot himself that he actually addressed it—"Good morning, Madame!"

A Minister Made to Hear.

Rev. John Wallace, a minister of the Mississippi River Presbytery, announces that he had been totally deaf in one ear for a number of years, and had tried many skillful physicians and surgeons without avail, until he providentially called on Dr. Aborn, at No. 134 Smithfield street, who, in the short space of five minutes time, restored his hearing perfectly, so that he could hear the ticking of a watch at a distance of three feet. Evidence accumulates daily of Dr. Aborn's singular ability to effect, what seems in many cases, to be almost miraculous cures, as though he was endowed with a peculiar gift of healing the various ills to which flesh is heir.—*Commercial.*

Cure of Fistula.

DR. KEYSER—I write to thank you for your kindness and scientific management of my disease, for which I called to consult you some time in January last. You will remember that I had a complication of diseases, which finally ended in a terrible fistula, which I had been advised to "let alone," on account of a harassing cough, which it was feared might fasten it on my lungs. I knew that the peculiar mode of treating diseases like mine was by a cutting operation, which if successful at all, would naturally throw the disease upon the lungs or some other vital organ, on account of the suddenness of the cure and the immediate check to the discharge, which I believed was a salutary provision of nature to get rid of some morbid condition of the system. I feel perfectly satisfied that your method of treatment, purifying the system, and local applications to the fistulous part, must cure, if anything could, without cutting, which I find it did, and I am happy to report myself well in every particular, with sounder and better health than I have had for years. I would also add that the applications you made were almost painless, and have left me a new man, with all the energies and vigor of restored health.

Yours, gratefully,
I——C——

The Marvel of the Age.

The *Evening Advocate*, very excellent authority, says:

Some of the most marvelous cures which have ever been performed in this city have been effected recently by the Great Arabian Physician, who, in the short space of six months, has achieved a reputation as a profound physician second to none in Western Pennsylvania. In every instance in which his skill has been employed, success invariably has unvaryingly followed. To-day he is doing far more business than any three physicians in this locality. We paid a visit to his Dispensary the other day, where we were surprised to find the ante-chamber filled with people patiently awaiting their turn to be admitted to the presence of the physician whose name is upon every tongue.

While there, we learned a fact which, in itself, conveys a volume. Notwithstanding the fact that the Arabian Physician has an active and energetic assistant in the shape of one of the best pathological examiners in the country, the rush of business has been so great as to render it necessary to employ two experienced druggists to put up medicines for the patients which flock to his rooms. Did he desire to do so, the Arabian Physician could give hundreds of names of those who have experienced permanent benefit from his treatment; this, however, he does not propose to do, inasmuch as he is averse to dragging the names of his patients before the public. In fact it is wholly unnecessary, since he finds his time wholly occupied in waiting upon those who are attracted by his famous skill, which, we may add, is now universally known and recognized. In this connection we will add that the Arabian Physician has made arrangements to visit Cincinnati in a few weeks at farthest, where he will be engaged during the early summer months. Persons desirous of calling in his aid will therefore do well to embrace the present opportunity.

The Arabian Physician does not claim to be infallible; but he points to the long list of patients who have been restored to high health and happiness through his peculiar Arabian curative treatment, and in view of the fact that he has invariably succeeded where others have failed, not only to cure, but to discover the real disease, it is not saying too much to award him the position of a physician whose success entitles him to the reputation of the marvel of the age.
